

BANDITS GET \$41,500 MINE PAYROLL

HOLDUP SUBSTITUTE MAIL CARRIER AND TIE HIM TO TREE

ROBBERS LEAVE REGISTERED MAIL

Were Riding as Passengers Between Carterville and Bush—Money Was for Employees of Western Coal and Mining Company of Bush—Victim Escapes and Reports Theft

(By The Associated Press)
CARTERVILLE, Ill., Sept. 29.—Two bandits held up and robbed a substitute rural mail carrier between Carterville and Bush of \$41,500, the payroll of the Western Coal & Mining company at Bush late this afternoon, it was learned here this evening. The bandits accompanied Lawrence Jerard, the driver, as passengers in the taxicab used to haul the mail from Bush.

Jerard, taking the place of Edward Zimmerman, the regular mail carrier, who is ill, said he was within three miles of completing the trip when the two bandits ordered him to drive the car into the woods along the roadway, one of them pressing a revolver against his back.

Jerard, according to reports here was forced out of his automobile and tied to a tree. The men then lifted the mail sacks out of the car and rifled them.

LABOR MEMBERS OF PARLIAMENT TALK ABOUT US

Says Prohibition Does Not Exist in This Country

(By The Associated Press)
LONDON, Sept. 29.—"The suppression of the saloon is an achievement for whom the American people cannot be too thankful," declares a joint report of Charles H. Stieh and John E. Davidson, labor members of parliament who recently visited the United States to investigate the operation of prohibition.

"Prohibition, however, as we in this country were led to believe it prevailed, does not exist," adds the report which also notes the development of homebrewing, wine making and illicit traffic in liquor.

The labor members continue: "We are of the opinion that the American people will demand facilities for the purchase of light wines and beers and had the anti-saloon propaganda been in the direction of eliminating the more disgraceful features of the saloons, securing changed management and more effective control concurrently with the provision of facilities for obtaining these simple beverages, the bitter animosity aroused by its more drastic efforts would not have been provoked."

"People who are in a position to know," continues the report, "have described America as a bootleggers' paradise," and goes on to say, "we were constantly driven to the conviction that the resulting consequences on the morals of the people boded ill for the future, particularly as regards the rising generation."

A mass of information on both sides of the question was furnished these members of parliament, and it is asserted, "for every claim advanced by the prohibitionists, it is possible to present conflicting views."

LATEST OFFER OF PREMIER GEORGE SEEMS TO PLEASE

Both London and Dublin Press Believe It Will be Accepted

(By The Associated Press)
LONDON, Sept. 29.—"Wholly conciliatory," is the view expressed both in London and Dublin of Premier Lloyd George's latest note to Eamon DeValera in which the premier invites the leaders of the Sinn Fein to attend a conference in London October 11 in an endeavor to settle the Irish controversy.

Mr. Lloyd George makes as the basis of the note the offer of a conference "with a view to ascertaining how the association of Ireland with the community of Nations known as the British Empire may best be reconciled."

It is understood that various members of the British cabinet are of the opinion that there is nothing in the communication to prevent the proposed conference. This certainly appears to be the belief held by the London public and press; and the comments thus far received from Dublin speak of "the extreme gratification" the communication is causing there.

Unionist opinion in Ulster, according to Belfast reports reaching London is that the note makes it easier for Mr. DeValera to agree to another meeting. Informal discussions among the Sinn leaders are said to have been held in Dublin this afternoon and evening. This is considered as leading strength to the report that Mr. DeValera will have the draft of his reply to Mr. Lloyd George ready when the Daily Eir-cann cabinet meets tomorrow.

SCHOOL STUDENTS GO ON STRIKE

Bend, Oregon, Sept. 29.—Practically the entire student body of the Bend high and junior high schools, three hundred and fifty in number walked out on a strike today in protest against the dismissal of the Principal, Mark Anthony Paulson, on charges of insubordination. The strikers paraded the streets for more than an hour.

LONDON ELECTS NEW LORD MAYOR

London, Sept. 29.—Sir John Raddley was today elected Lord Mayor of London. He succeeds Lord Mayor James Roll, whose term has expired.

TAX REVISION BILL CAUSES WAR OF WORDS

Penrose and Simmons Row Over Foreign Traders Section

(By The Associated Press)
WASHINGTON, Sept. 29.—Senate consideration of the Republican tax revision bill was featured today by the introduction of sweeping amendments from the Democratic side, a row between Chairman Penrose of the finance commission and Senator Simmons of North Carolina, ranking Democrat on that committee, and a charge by Senator LaFollette, Republican, Wisconsin, that features of the bill, dealing with foreign traders and foreign trade corporations constituted "a device to enable individuals of great wealth to escape taxation."

Behind the scenes there were some efforts to bring about an agreement among opponents of the committee bill on the more outstanding tax features, but apparently there were no final conclusions.

Republican senators in the agricultural "bloc" were confident, however, that with the aid of the Democrats, they would be able to defeat the committee plan to continue the taxes on freight, passenger and Pullman accommodations for another year at half the present rates.

Repeal of these levies was one of several proposals put forward by Senator Simmons on behalf of the minority members of the finance committee.

The others included a maximum surtax rate of 52 per cent in place of the proposed 32 per cent; retention of the corporation capital stock tax which the committee would repeal next year; repeal of the \$2,000 exemption allowed corporations and of the special taxes on brokers and proprietors of theaters and other places of amusement and on owners of automobiles operated for hire. Another amendment would provide that persons having net incomes in excess of \$20,000 would not be eligible for the normal exemptions now allowed by law to single men, married men and to heads of families on account of dependents.

Under the Simmons amendment to the surtax provision, the rates fixed by the committee up to 31 per cent would stand, but above that the levies would be 32 per cent on incomes from \$65,000 to \$74,000.

In a statement explaining the amendments, Senator Simmons said repeal of the transportation taxes would cause a net loss of \$131,000,000 a year but that the government would get \$75,000,000 from the capital stock tax, \$55,000,000 from repeal of the \$2,000 exemption allowed corporations and \$26,000,000 thru elimination of the normal exemptions where individual incomes exceed \$20,000.

SPECULATIONS OF OFFICER ARE PROBED

NEW YORK, Sept. 29.—Stock speculations by Police Inspector John F. Dwyer, his purchase of a \$154,000 apartment house and the alleged employment of two policemen under his command by his attorney in connection with a civil suit were investigated today by the Meyer legislative committee.

After the inspector bought the house thru his attorney, Warren Leslie, with a \$20,000 cash payment, he was known to his tenants as William Leslie, the name of the attorney's father. The inspector's explanation was that because he was a police officer they would holler police persecution should action be taken against disorderly tenants.

Inspector Dwyer declared he accumulated \$32,000 in stock speculations thru five brokers and by savings from his salary, and that after putting \$20,000 into the house he incorporated the business and assigned his stock to his son.

UP TO GRIEVANCE COMMITTEE NOW IN RAIL STRIKE

If Committee Supports Demands Will Call Strike

(By The Associated Press)
CHICAGO, Sept. 29.—If the 186,000 members of the Brotherhood of Railway Trainmen, more than 90 percent of whom have voted to strike are supported in their demands by the grievance committee a strike will be ordered.

With this parting declaration President W. G. Lee despatched fifty seven general chairmen of the unions to their homes tonight with written instructions to call their grievance committees, get their approval or disapproval of the strike vote, and report back here next week.

Lee expects to act on the committee instructions before the Brotherhoods of Engineers, Conductors, Engineers and Trainmen and the Switchmen's Union of North America have completed the count of the 259,000 strike ballots, which will start here Monday. The strike call, however, he indicated today will provide for a walkout of the trainmen when and if the other unions strike. A walkout of one union unsupported by the others will not be undertaken. That the strike, even if ordered, will never actually take place, continued to be the prevailing impression in union circles today.

While Lee has promised to call the walkout if the committees so direct, he bluntly told his men in a general letter on September 22, that he would be remiss in his duty if he failed to point out to them that wages and working conditions established since 1918 were the result of a world war such as never before known. He said the government reports indicate 5,000,000 men out of work; that nearly all classes of labor have been reduced to accept some wage reductions; that the pay increases granted them last year by the United States labor board was based on the increased cost of living; and that government reports show a reduction of more than 16 percent in such living costs.

Vote Is Overwhelming

The strike vote was taken on the question of accepting or rejecting the twelve percent wage cut made July 1, by the labor board. Tabulation of the vote has not been completed tonight but the ballots already counted showed from 90 to 95 percent of the men on every railroad system in the country voted to quit work rather than accept the pay reduction. No system failed to turn less than nine out of ten votes for the strike.

Lee's determination to announce his union's stand before the other brotherhoods complete their ballot count shifts the entire responsibility for the next move in the threatened general strike to the four unions which took a joint vote—Brotherhood of Locomotive Engineers, Order of Railway Conductors, Brotherhood of Locomotive Firemen and Engineers and the Switchmen's Union of North America.

The affiliated shops crafts by a vote of 325,000 to 48,000 have already gone on record in favor of a strike but have postponed action pending the decision of the labor board on rules and working conditions, which questions are before it. As the engineers, conductors, firemen, engine-men and switchmen walk out the trainmen and shopmen will join them but the first four will have to assume responsibility for the move.

(By The Associated Press)
BERNE, Switzerland, Sept. 29.—Louis Forrer, twice president of the Swiss Confederation, is dead, it is announced here.

RAYMOND, Ill., Sept. 29.—Mrs. Alex Malt, 42, died at her home here yesterday as the result of burns received when she poured gasoline into a stove instead of kerosene.

DECATUR, Ill., Sept. 29.—P. C. Stoenow, assistant postmaster here, died this morning after a long illness. He had been in the postal service 27 years.

DIXON, Ill., Sept. 29.—Trial of Ezra Reynolds, 69, for the alleged murder of his wife in their home at Paw Paw, on June 14 was started today in the Lee county circuit court. Reynolds is charged with having choked his wife to death after which he tried to take his own life by cutting his own throat. He was found in the barn at their home two days after the alleged slaying of his wife. He will claim self-defense.

CHICAGO, Sept. 29.—Representatives of the state farm bureau federation of Indiana, Illinois and Wisconsin are meeting here today with E. B. Heaton, director of dairy marketing of the American Farm Bureau Federation. The matter of supplying Chicago with milk is one of the important matters to be considered at the conference.

DES MOINES, Ia., Sept. 29.—Governor N. E. Kendall issued a proclamation today appealing to the people of Iowa to exert every possible effort to relieve the unemployment situation in the state. He says it is conservative-ly estimated that there are fifty thousand men in the state, who, with families, to provide for, are deprived of the ordinary means of subsistence.

DES MOINES, Sept. 29.—Frank Brown, an escaped prisoner from the state farm near Olive is in the county jail here waiting to be taken back to Fort Madison to complete his ten year sentence for house breaking. He surrendered yesterday having been at large for one month. Brown says he escaped because his mother was sick. He says she was worried about him while he was at large, so he decided to give himself up.

JANESVILLE, Wis., Sept. 29.—From all parts of this section of the state come reports of phenomena caused by the warm weather of September. Lilacs in bloom, apple trees in blossom, berries on the bushes and roses putting out new flowers are common, and winter wheat and rye, so far sown has shown a growth and color never remembered.

CHICAGO, Sept. 29.—A demand for the immediate enactment of an adequate protective tariff bill was voiced tonight in resolutions adopted by more than 1,000 manufacturers from eighteen states who attended the national conference of state manufacturers' associations.

MARYSVILLE, Calif., Sept. 29.—Jack McGill recently convicted of the murder of John D. Koplos, former Anderson, Ind., merchant, testified for the prosecution today in the case of Walter Loveless, charged with being an accessory in the slaying of Koplos. McGill said Loveless plotted to rob Koplos of his jewelry which was valued at \$12,000.

TWO ARRESTED AS SUSPECTS IN DOUBLE MURDER

Are Held for Murder of Dr. J. P. Durand and M. G. McCauley

(By The Associated Press)
LOS ANGELES, Calif., Sept. 29.—Vincent M. Parrell, 22, and Winifred Strike, 21, were arrested today on suspicion of the murder of Dr. Joseph P. Durand and Myron George McCauley, whose bodies were found in the wreckage of an automobile in Los Angeles, April 25, last.

McCauley, who was the son of H. O. McCauley, a business man of Colorado Springs, Colo. Durand was engaged to marry Miss Helen Zeleski, of Chicago, who came to Los Angeles for the funeral.

Durand was shot twice in the abdomen and McCauley once in the heart. A verdict of double suicide was rendered, but relatives of both men declined to accept it.

According to the police Parrell and Strike were acquainted with Durand and McCauley and shortly before the tragedy borrowed from Durand two revolvers, neither of which was returned altho one was said to have been found beside the men in the wrecked motor car.

SENATE MAY VOTE AT EARLY DATE ON PEACE TREATIES

Agreement Between Leaders Practically Reached Thursday

(By The Associated Press)
WASHINGTON, Sept. 29.—Ratification by the senate in a fortnight of the administration peace treaties with Germany, Austria and Hungary loomed as a prospect tonight after Republican and Democratic leaders during the day had discussed a proposed unanimous consent agreement drafted by Senator Lodge, the Republican leader to take the final votes October 14 or 15. Both expressed hopes of obtaining a formal order of the senate tomorrow providing for such a program.

Announcement of the negotiations was made in the senate late today by Senator Lodge and with the discussions showing evidences of success the Republicans dropped their plan for a night session tonight. Senator Lodge intimated, however, that should the agreement be blocked he would return to the night session drive for ratification. Mr. Lodge said he had every reasonable hope of reaching an agreement and Senator Underwood the Democratic leader also said an agreement had been "practically reached," and was ready for consummation tomorrow.

Involved in the program is a proposal that should any senator desire to debate treaties the tax revision bill would be laid aside temporarily. It is expected, however, that the tax measure actually will be before the senate most of next week with the following week, preceding the date for voting, largely devoted to the treaty.

Democrats Oppose Voting Plan

The movement for a voting agreement developed today in a conference of Democratic senators who declared unanimously against the Republican plan for night sessions and authorized overtures by Senator Underwood to the Republicans for a voting agreement. The Democrats reaffirmed their stand against making ratification a party question and left each senator free to vote as he shall determine.

In the effort to agree upon a date for voting on ratification, Chairman Penrose of the finance committee in charge of the tax bill agreed to give way to the treaties stating he believed it would actually expedite his measure.

Ever since President Harding's inauguration, Senator Watson declared, the nation has been drifting irresistibly, into the league.

He also contended that the treaties failed to provide for release of American citizens who had violated the espionage laws. Referring apparently to Eugene V. Debs, he said, a man was serving a 10 year sentence in the Atlanta penitentiary for repeating his (Mr. Watson's) words.

"Because he repeated a part of a speech I made," said Senator Watson "that conscription was unconstitutional, shouldn't he be in the senate and I in the penitentiary? I've said a thing more than I have said here in the senate and I think I'm a better company than he is. That is my opinion."

REDUCES PRICE OF IMPLEMENTS

(By The Associated Press)
CHICAGO, Sept. 29.—The International Harvester company today announced reductions ranging from 10 to 20 per cent in practically all lines of farm implements. The cut is effective October 1.

This is the company's second general reduction this year. In March and April prices of agricultural machines were cut 10 to 15 per cent and in July reductions were made on all types of tractors.

"These prices are made after a careful study of market and labor conditions," the harvester company's announcement said. "The judgment of the lowest possible raw material and production cost that can under the most favorable conditions be forecast for the manufacturing season of 1922."

SEPTEMBER HEAT RECORD BROKEN

Chicago, Sept. 29.—Weather bureau records of 24 years for September 29, were broken today when the thermometer registered 85 degrees at 3 p. m.

The heat was broken early this evening by a thundershower.

GRAND GOBLIN SAYS KU KLUX KLAN HAS 700,000 MEMBERS

Voluntarily Appears Before the Grand Jury at Cleveland—Tells About the Workings But Says That Membership Roll is Secret

—Wizard of Order Gets \$100 Per Week

(By The Associated Press)
CLEVELAND, O., Sept. 29.—There are approximately 700,000 members of the Ku Klux Klan in the United States, Charles W. Love of Indianapolis, grand goblin of the organization, with jurisdiction over Ohio, Wisconsin, Michigan, Indiana, Kentucky and West Virginia told County Prosecutor Edward C. Stanton and Chief of Police Frank W. Smith today.

Love voluntarily appeared before Stanton and Chief Smith. He said he came from Chicago when he learned that a grand jury investigation had been ordered.

Love was in conference with the officials for more than four hours, during which he explained the constitution of the order, how much various officials receive as commission on initiation fees, which he called "donations," who is barred from the order, or "disqualified" as he preferred to call it, and withheld only information regarding memberships. He promised to produce the books and records of the local branch tomorrow.

"The membership roll is secret and it is in Atlanta, Ga., the headquarters of the order," Mr. Love told his interrogators.

Both Prosecutor Stanton and Chief Smith questioned Love at length about night riding activities of the Ku Klux Klan and tar and feathering episodes credited to masked members of the organization.

"Any member doing anything like that would not only be expelled from the order but would be handed over to the proper authorities," he replied.

"There is no initiation fee," Love told Stanton. One of the requirements of membership, he said, is a donation of \$10 which goes to a preparation fund.

The salary of Wizard Simon Love is \$100 a week. A King Kleagle, in charge of the state gets \$1 on each member in his realm and a grand goblin, of there are nine, receives fifty cents on each member in his domain.

BROOKLYN MAN IS COMMANDER OF GRAND ARMY

Lewis S. Pilcher is Elected at the Closing Session

(By The Associated Press)
INDIANAPOLIS, Ind., Sept. 29.—After bidding farewell to their comrades the veterans of the Grand Army of the Republic brought the fifty fifth annual encampment to a close today. The old soldiers held a few more impromptu parades and marched off tonight to their train.

The encampment was ended today with the election of Lewis S. Pilcher of Brooklyn, N. Y., as commander-in-chief, the selection of other national officers and the choice of Des Moines, Iowa, as the city for the next meeting.

Other national officers elected were:

Robert W. McBride, Indianapolis, senior vice commander; Henry A. Johnson, Washington, D. C., junior vice commander; M. W. Wood, Boise, Idaho, surgeon-general, and George B. Smith, Minneapolis, chaplain-in-chief.

After discussing action to provide for eventual disposition of the property of the grand army when its members are gone it was decided that no efforts along this line should be made at present encampment.

Affiliated organizations which have been meeting here also concluded their sessions today.

The Sons of Veterans unanimously elected Clifford M. Ireland of Peoria, Ill., commander-in-chief.

Rapid work was accomplished by the convention before it encountered the snarl over the officers' salary advances.

Without debate the delegates reaffirmed the union's declaration made at the 1919 convention for the appointment of a committee to work out a plan for government acquisition of the coal properties. The convention also authorized continued expenditures to combat litigation which was said to be part of a nationwide conspiracy to destroy the union.

Administration forces also scored a victory in a clash with opponents over President Lewis' recommendation to apply the unit rule for voting by the miners delegates to conventions of the American Federation of Labor.

Frank Farington, the Illinois leader attacked Lewis' proposal as autocratic.

E. J. Coultas made a business trip to the city from Winchester yesterday.

MINE WORKERS DISAPPROVE OF SALARY INCREASE

Is First Rebuke Given to Administration Officers

(By The Associated Press)

INDIANAPOLIS, Ind., Sept. 29.—Disapproval of salary increases of approximately 60 per cent for officers of the United States Mine Workers of America was voted today by the union's convention which later was thrown into an uproar that continued most of the afternoon by a motion to require repayment of the alleged excess in salaries paid since July last year.

President John L. Lewis, opposing the motion, declared its adoption would brand the officers before the public as "a band of thieves." On a rising vote the motion was killed 1,189 to 886, but protests that the count exceeding the number of delegates resulted in reconsideration by a roll call which will not be completed until tomorrow. Continuous session thruout the night that was ordered by the delegates was abandoned when the miners had to give possession of the convention hall to others. At that time three Pennsylvania districts had voted heavily against the motion.

By refusing to approve the salary increases, which were fixed by the union's executive board the convention gave its first rebuke to the administration officers. The salary advance was authorized by the 1919 convention directing that any wage increase for miners should be extended to their officers. Opponents of the sixty per cent increase asserted it was twice the amount of increase granted early in 1920 but that was denied by defenders of the officers who said the increases were on the same proportion.

Rapid work was accomplished by the convention before it encountered the snarl over the officers' salary advances.

Without debate the delegates reaffirmed the union's declaration made at the 1919 convention for the appointment of a committee to work out a plan for government acquisition of the coal properties. The exchange in Germany has now reached the point where one gold mark equals 90 paper marks. Apparently the relation between the gold and paper Russian ruble is rapidly being approached by the Germans.

In the fiscal year 1920, the ordinary disbursements were approximately \$6,400,000,000 and the receipts \$6,694,000,000. These figures do not include the postal and public debt operations.

Autos will soon be classed as deadly or dangerous weapons, the frequency of accidents and the manner in which the machines are used in "getaway" scheme for

burglars and bank robbers prove their danger.

Babson says "there is no duty which so vitally rests upon the shoulders of a man as the duty of bearing his part in the community." Being loyal to your own town and doing your part in making it a more desirable place to live. A large majority of our citizens are learning that lesson and that it pays, but we have that minority always with us.

Judge Wade of the U. S. Court, says the real menace "to America today is the indifference of men and women to their responsibility and their duty and the most effective element in America today for better citizenship is the woman of America provided they will accept the opportunity and the responsibility."

MAIL BY FREIGHT.

The Postoffice department announces that it will resume the practice of shipping all monthly, semi-monthly and bi-weekly periodicals by mail instead of by freight as has been done since 1911. At the time the freight shipment method was adopted mails were handled on a weight basis and a saving in cost of transportation by freight was a very great item. Since then the basis of paying railroads for transportation of mail has been changed from the weight to the space method and transportation charges

by freight have greatly increased. It is estimated that the reversion to carrying these periodicals by mail will not only save the government money but will greatly speed up the delivery of publications.

NAME YOUR FARM.

Secretary Wallace of the Department of Agriculture has sent out a notice that he hopes will come to the attention of all farmers proud of their farm development. He wants them to know that they can patent the name of their farms and so establish a patented standard of quality for their produce. The United States patent office recently approved and published in the Patent Office Gazette a trademark covering "Hawkeye," the name of an Iowa farm, breeder of pure bred hogs, cattle and sheep. This is the first stockman, and probably the first farmer, Secretary Wallace says, to obtain a United States trademark for his farm. If a farmer uses his farm name and trade mark as part of his selling operations the trademark protects the owner of the farm in interstate commerce. Several states have laws which authorize the registration of farm names with the state authorities, but a trademark registered by the government protects the use of the farm name outside of the state in which the farm is located.

SEND THEM TO JAIL.

The attorney general of the United States in a recent address said the time has passed for a discussion of the eighteenth amendment—it is now law and a part of the Constitution of the country. "It is the duty of the minority as well as the majority to obey the law." There may be many who disagree with its provisions, but the brazen defiance of the law by those who oppose its enforcement should arouse authorities to a greater effort to suppress the traffic in the poisonous stuff sold as whiskey. If the courts are to succeed in breaking up the traffic in hooch they must do so by imposing severe punishment of the offenders. Mere fines will not be a sufficient punishment at all. Hooch vendors will make more in a day with their illegal traffic than their fine will amount to. A fine is no punishment at all for an offense in which a continuance in business will more than make up for any fines imposed. Nothing but jail terms for hooch sellers will put an end to the traffic which has been piled with such freedom for many months.

MARRIAGE SOLEMNIZED AT PEORIA HOME

Miss Dicey Dunlap Former Jacksonville Girl Is Bride of Charles Gallies.

The marriage of Miss Dicey Dunlap and Mr. Charles Gallies of Peoria was solemnized in that city at 9:30 o'clock Tuesday morning, at the home of the bride's parents, Mr. and Mrs. Howard Dunlap. The ceremony was performed by Rev. Mr. Chapman, pastor of the Holy Memorial Methodist church. Only relatives and near friends were in the company witnessing this very pretty home ceremony.

Miss Harriet Dunlap, a sister of the bride, was the maid of honor and Mr. Emmett Godfrey was the best man.

The bride's gown was of white argandie and her sweeping tulle veil was secured with bandeau effect. She carried a shower bouquet of bride's roses. The maid of honor wore argandie of cream shade and carried a bouquet of pink roses.

The Dunlap home had been very prettily decorated for this event, pink and white being the color effects, secured with roses and carnations.

A wedding breakfast was served after the ceremony.

The bride graduated from the Jacksonville high school in 1918. The family a little later removed to Peoria and there Mrs. Gallies held a commercial position. Mr. Gallies is accounted one of the successful young business men of Peoria.

After the wedding journey the newlyweds will be at home in their new bungalow at 826 Butler street.

Mrs. Gallies is a grand daughter of Stephen Dunlap of this county and Miss Ruth Dunlap was among the guests at the wedding.

MR. TICKNOR PROMINENT IN CALIFORNIA

Harry M. Ticknor, a former resident of Jacksonville and for years a resident of California, is prominent there both as an attorney and an Elk. A recent issue of "The Pacific Coast Elk" has a picture of Mr. Ticknor and the article says:

"In May, 1901 Harry Ticknor was initiated as a member of Jacksonville, Illinois lodge No. 682, becoming the first exalted ruler of that lodge immediately thereafter on its institution. Since that date he has been so favorably impressed with the purposes of the order that he has taken its policies and precepts up as a part of his life work, and the labors of love have brought many honors to him as he practices the teachings of Charity, Justice, Brotherly Love and Fidelity. With such men as he the possibilities of California Elksdom are unlimited."

Funerals

Wilkinson.

The funeral of Richard Wilkinson was held Thursday morning at the Christian church at Virginia at 11 o'clock. The services were in charge of Rev. French and burial was made in the Walnut Ridge cemetery.

Music was furnished by a quartette made up of Miss Christine Sly, Mrs. Nace Yaple, Miss Ruth Way and Mrs. Fred Savage.

The bearers were James Collins, C. E. Paul, Henry Pratt, W. F. Pearn, Frank Redding and Philip Henderson.

CARD OF THANKS

We wish to extend our heartfelt thanks to the neighbors and friends who so kindly assisted us during the illness and death of our darling daughter and for the many beautiful flowers.

MATRIMONY

Chambers-Berger

Miss Bertha Berger of Ashland, and Earl Harland Chambers, of St. Louis, were united in marriage in a very pretty ceremony in the Leland hotel in Springfield Wednesday, with Rev. J. A. Betcher of Ashland officiating. A small group of close friends and relatives were present.

Miss Berger was formerly a student at the Illinois Woman's College here. She is the daughter of Mr. and Mrs. G. S. Berger of Ashland, and is a graduate of the Ashland high school. After her graduation there, she attended the I. W. C. here and then studied for two years at the Columbia College of Dramatic Art in Chicago.

The groom is a graduate of the Mason City high school and is at present engaged in the railway mail service with St. Louis as headquarters. After a short wedding trip the couple will make their home in St. Louis.

SEWER COMMITTEE PREPARES FOR WORK

Additional Names Will Be Secured on Guarantee List—Survey to Be Pushed as Preliminary Step in Project.

At a meeting held Thursday morning at the Chamber of Commerce rooms, the citizens' sewer committee was reorganized. Several months ago some preliminary work was done with reference to extension of the city's sewer system and it is now the intention to proceed further.

As the basis for the work a survey as to cost is necessary and the estimated expense for securing this and other information is about \$5,000. When the project was inaugurated a list of about 400 citizens was secured, willing to guarantee this expenditure. It was decided at the meeting yesterday to secure about 100 additional names, thus bringing the total list of guarantors up to 500.

C. OF C. DIRECTORS MET THURSDAY NIGHT

Decide to Hold Reward in Check Cases Until Conviction is Obtained—Routine Business is Transacted.

The board of directors of the Chamber of Commerce held the regular meeting last night in the Chamber of Commerce rooms. There was a good attendance of the directors, all of them being present except those out of town.

Routine business was disposed of and then several committee reports were heard. These included the committees on the extension of the sewers, boulevard lighting, extension of trade, housing and tourists' reception.

The Forum steering committee met with the board to discuss the future activities of the Forum, and were given permission to secure Calvin Brown, Chamber of Commerce speaker of national reputation, for one of the Forum meetings in the near future. Mr. Brown will address meetings at Hannibal, Springfield and Decatur within the next ten days and the chances are that he will be secured to address the next meeting of the Forum here.

The reward concerning the arrest of those passing fraudulent checks was discussed, and it was decided not to pay the reward until the person charged with forging the check had been convicted.

It was also decided to have certain committeemen correspond with Congressman Stanley McCormick, from this district, in regard to the removal of the war tax from freight and express. The removal of this tax would mean a saving of over \$400 per year to local merchants, according to estimates made recently. A bill including the removal of this tax is before the house of representatives in congress now.

The committees appointed to look into various matters are rapidly showing concrete results parent in no long time.

ZION

Glenn Durham suffered an attack of ptomaine poisoning last Thursday.

Mr. and Mrs. Cal Hart and son called on Mr. and Mrs. William Hart last Thursday evening.

Mrs. Henry Ozburn received word of the sudden death of her sister-in-law, Mrs. Fred Spencer, Tuesday morning at her home in Texas.

Mr. and Mrs. Spencer were former residents of this neighborhood and her untimely death will be learned with great sorrow.

The remains are expected to arrive at Murrayville Thursday and taken to the home of Dr. J. H. Spencer.

Virgin Wagstaff was hulling clover Tuesday afternoon.

Robert Durham was on the sick list last week.

Mr. and Mrs. C. D. Bolton and son visited near Nortonville Sunday.

Walter Dobson continues very poorly, yet the change in temperature is a great benefit to him.

LARGE ENROLLMENT AT WHITE HALL SCHOOL

White Hall School Has Largest Enrollment in Greene County—Other White Hall News Notes.

White Hall, Sept. 29.—The enrollment of the White Hall high school today is 190, three more than the enrollment at Carrollton, making White Hall the largest high school in the county. This situation is revealed in a telephone conversation between Supt. Cobb of Carrollton and Supt. Sloan of White Hall. Cobb asked Sloan, "Where are all your pupils coming from?" Mr. Sloan states that they have a pupil from nine miles east of Carrollton, and others from the vicinity of Roodhouse, while the local population leads the other towns of Greene county. Mr. Sloan is one of the leading educators of the state, and he is bringing the most practical experience to the conduct of the White Hall schools. He has just been elected president of the White Hall Brotherhood, which is evidence of his standing in the community at large.

L. E. Frost, publisher of the Berkshire World, is again located in Springfield, after a residence in Chicago since his publication ceased to be printed in White Hall. All his office and publication activities will soon be located at Springfield again.

John Broberg and daughter, Miss Anna, are now residents of White Hall, coming from Lincoln, Kansas. Mr. Broberg is the father of Dr. Broberg, who purchased the R. G. Smith residence on East Bridge street some time ago for occupancy by the family.

Dispatcher and Mrs. G. A. Greene spent Tuesday in St. Louis.

The family of A. A. Thompson are having a reunion this week for the first time in nine years.

The family homestead is located some four miles southeast of White Hall, and it is the scene of happy days of more than the average significance. The company includes Justice and Mrs. Floyd E. Thompson and daughter, Mary Ellen, of Rock Island; Mr. and Mrs. Emory Thompson, son and daughter, of Hope, Arkansas; David Thompson, Mexico City, Mexico; Mrs. William Allen and two children, Roodhouse. These with the members at home make a party of seventeen. The Thompsons represent pioneers of this part of Greene county. They are the substantial, progressive and patriotic type of people, and are direct descendants of John Thompson, veteran of the Revolutionary army, whose grave at Barrow was recently given the significance of a government marker.

How To Get Relief From Rheumatism

Scientists Agree That the Cause Is Due to Waste Products in the Blood.

The blood is the main highway of the body. It carries food and oxygen to the tissues, and carries away waste products. If the blood is impure, the body is impure. It is impure when it contains waste products that work like a poison. When waste products are a menace to life, they lower vitality, cause rheumatism, and other ailments. S. S. S. is the only remedy for rheumatism, because it removes the poisonous waste matter which is the trouble. There are no side effects and the result is wonderful. Taking S. S. S. today and waiting for the trouble to go away is like waiting for a cure that will never come.

Thousands and thousands of men and women during the past 30 years have cleared their blood of waste products with S. S. S. It is the only remedy for rheumatism, because it removes the poisonous waste matter which is the trouble. There are no side effects and the result is wonderful. Taking S. S. FORD-NEWBERRY CONTEST GOES TO U. S. SENATE

Majority and Minority Reports Submitted by Committee

(By The Associated Press) WASHINGTON, Sept. 29.—

The Ford-Newberry contest over the 1918 senatorial election in Michigan was submitted for decision today to the senate in majority and minority reports from the privileges and elections committee which heard the contest.

The majority report absolved Senator Newberry from charges of having violated the corrupt practices act thru undue expenditures in the campaign while the minority report insisted that the expenditures could not have been made with his knowledge. It remains for the senate to vote on the question on whether Senator Newberry will be seated, with the prospect that several weeks will elapse before the final decision.

The majority report was presented by Senator Spencer, Republican, Missouri, on behalf of the Republicans of the committee. Several Republican senators, however, have indicated an intention to vote against seating Senator Newberry.

About a half dozen of the so-called "progressive" Republicans were said to be numbered among the opposition but party leaders have stated private convictions that the contest would end with adoption of the majority recommendations.

PLANS DISCUSSED IN ARBUCKLE CASE

(By The Associated Press) SAN FRANCISCO, Sept. 29.—

District Attorney Matthew A. Brady late today called a conference of his staff leaders to plan details for the prosecution, with the least possible delay of Roscoe (Fatty) Arbuckle on a charge of manslaughter in connection with the death of Miss Virginia Rappe.

Brady called to the conference his three assistants in the east—Milton U'ren, Isador Golden and Joseph O'Connor and it was announced that the earliest date open on superior court calendar is October 3, but that for formalities might delay opening of the case until later than that time.

Police Judge Sylvain Lazarus, who yesterday reduced the charge made by District Attorney Brady scoring the judge's action, Judge Lazarus called Brady's charge "silly" and said he had received commendation on his stand from many persons interested in the case.

Arbuckle spent today in seclusion at the residence of his brother, Arthur Arbuckle, in San Francisco.

Accompanied by his wife, her mother and his attorney, he left San Francisco at 8 o'clock.

TELEPHONE COMPANY MUST PRODUCE BOOKS

CHICAGO, Sept. 29.—The Illinois Bell Telephone company was ordered today by the Illinois Commerce Commission to produce its books before the commission on November 17 to substantiate its claim that present tolls should not be reduced as requested by the city.

A statement of operations furnished by the commission showed that earnings for the first six months of 1921 were \$2,827,380.60, of 7.27 per cent of the \$77,777,327 valuation placed by the commission on the company's holdings. The present rate was authorized by the commission in December, 1920.

The telephone company's answer to the city's petition for reduced rates questioned the right of the commission to cite the company, stating the burden of proof lay upon the city in upholding its claims.

WILL TAKE FINGER PRINTS OF ALL CITIZENS

Chicago, Sept. 29.—Summoned by official proclamation of Edwin Ruger, president of the village of Glen View, every man of that village today reported at the village fire house to have his finger prints taken.

The step was taken in hope of finding a clue to the slayer of Fred Christensen, cashier of the Glen View State bank, who was shot and killed in the bank last Saturday. The slayer left several clearly defined finger prints as the only clue.

About 250 men live in the village.

BAD LUCK AND THE DEVIL PURSUED HIM

"I don't think any one has had more bad luck and sickness than I have. In 1905 I had two ribs, an arm and collar bone broken in a railway accident. Then I had pneumonia. After recovering I crossed a pasture when a bull chased me, tossed me over the fence and broke my right leg. In 1910 I had typhoid fever; since then severe stomach and liver trouble, which no medicine or doctor touched until two years ago I got a bottle of Mayr's Wonderful Remedy, which proved the first ray of light in thirteen years."

It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale at all druggists.

LAY PLANS FOR UNEMPLOYED

(By The Associated Press) WASHINGTON, Sept. 29.—

Ground work for an emergency program to meet the needs of the country's involuntarily idle found to number between 3,700,000 and 4,000,000 exclusive of agriculture was completed today by the National Conference on Unemployment.

Reports of most of the committees were completed and turned over to the steering committee, which is to wield the various recommendations into one definite whole for action by the full conference when it reconvenes tomorrow afternoon. Quick action upon the general emergency scheme is expected by the conferees.

Adoption of a final report by the committee on emergency measures by manufacturers was announced late today. The report, which was said to contain the core of the unemployment problem, because of the effect of the manufacturing industry upon economic conditions generally is understood to recommend the use of rotation of labor, the shortened week, partial employment, completion of repair and clean up as some of the means of increasing employment.

In addition the committee was said to favor an appeal to the patriotic co-operation of producers, manufacturers, wholesalers and retailers in passing along as rapidly as possible any price changes occurring in order to hasten business revival.

Recommendations of the construction committee were understood to regard the construction problem in a greater measure as one for local action because of the different factors existing in various localities. Acceleration of public works was said to be urged by the committee on municipal measures.

LAST NIGHT IS SPENT AT CARDS

(By The Associated Press) CHICAGO, Sept. 29.—Carl Wanderer, who is to hang at 7 o'clock tomorrow morning for the murder of Edward J. Ryan, the "poor boob" whom he hired for \$5 to stage a fake holdup and then killed, together with his wife and unborn babe, spent his last night tonight playing cards.

Wanderer dined on chicken, the gift of a local restaurateur, who for years has donated last dinners to condemned murderers. Then he resumed his card game, which had continued in the death cell thruout the afternoon while Governor Small was hearing and denying his final plea for life.

When told by Jailer Lawrence that the governor had denied his plea, Wanderer said: "Well, what of it? I am ready to go."

Then turning back to his guards with whom he was playing, remarked: "That last trick's mine. I played the ace of spades."

Wanderer played cards with his guards until after 10:30 o'clock, when, after losing a hand, he tossed the cards aside in disgust. He then entertained his guards with popular songs and a recital of his army experiences, laughing heartily at several of his jokes. After eating two sandwiches he said at midnight he did not know when he would retire, never referring to his coming fate.

PERSHING REVIEWS TROOPS AT AMYENCE

(By The Associated Press) MAYENCE, Germany, Sept. 29.—

General John J. Pershing, chief of staff of the American army today visited Mayence and reviewed the French forces of occupation. The 5,000 troops comprising the French garrison were massed in the city hall square for the review. American and French military bands played "The Marseillaise," and "The Star Spangled Banner."

General Pershing, accompanied by Acting Major General Allen, commander of the American forces in Germany and Colonel Johnson, General Allen's chief of staff, were met ten miles outside Mayence by a squadron of French cavalry and escorted to the city hall where the French General DeGoutte the French commander and General Guillaumat were awaiting him. Twenty one guns were fired in honor of General Pershing while 2,000 homing pigeons were released bearing despatches to all sections of the French occupied zone announcing the arrival of the American general.

General DeGoutte was host at a luncheon given in honor of General Pershing, who left for Coblenz.

NEW CLOTURE PLAN IS INTRODUCED TO CURB SENATE DEBATE

Measure Presented Thursday By Senator Townsend

(By The Associated Press) WASHINGTON, Sept. 29.—A

resolution embodying the new Republican plan to curb senate debate was introduced in the senate late today by Senator Townsend, Republican, Michigan. He and other Republicans, however, said the cloture plan would not be pressed immediately and certainly not during consideration of the tax revision bill.

The new cloture proposals met with instant and bi-partisan opposition. Senator Reed, Democrat, Missouri inquired if it was proposed to adopt the drastic house rules and Senator Borah, Republican, Idaho, asked Senator Townsend if he would be willing to add a proviso requiring all senators to be present when the senate was in session.

The Townsend resolution, which was referred to the rules committee provided for invocation of cloture by majority vote instead of the two thirds vote now required.

"I believe the country and a lot of doing business," said Senator majority of congress are in favor of the resolution. The rule, he added, "will simply give us an opportunity to act on the business of the senate."

Senator Townsend pointed out that under the proposed rule after cloture was adopted probably after many days debate on a bill each senator would have one hour allotted him or a possible total of ninety six additional hours of debate.

Tanlac Accomplishes Remarkable Results In Geo. H. Nickels Case

Prominent Wisconsin Man Says Tanlac Promptly Relieved Him of Bad Case of Stomach Trouble—Gains 27 Pounds and Feels Fine as a Fiddle.

It is an unquestionable fact that Tanlac is now being widely endorsed by well known men and women than any other medicine on the American market. One of the latest to testify is George H. Nickels, well known lecturer, residing at 227 Well St., Milwaukee, Wisconsin.

"Tanlac has not only completely restored my health but I have actually gained 27 pounds in weight," said Mr. Nickels in referring to the remarkable benefit he had derived from the medicine.

"For something over six months, my stomach was very badly disordered. I suffered terribly from indigestion and dyspepsia. At times I would be in great distress and I would invariably experience an uncomfortable bloated feeling for hours after eating. I had no appetite and the little I ate often made me drowsy. My head ached until I felt like I would burst and I was so nervous I trembled like a leaf. When I got up in the mornings, I was so weak and dizzy, I couldn't trust myself to walk around and I just hurt all over."

"Tanlac has brought about a wonderful change in my condition for I am now enjoying the very best of health. My appetite is splendid. I relish my meals. Every thing agrees with me perfectly. The nervousness, headaches, and dizzy spells are all gone and I just hurt all over."

GEORGE H. NICKELS.

never have an ache or pain. I am only too glad to tell others about the wonderful good Tanlac has done. It has no equal."

Tanlac is sold in Jacksonville by J. F. Shreve, and by leading druggists everywhere. (adv.)

"I don't care to discuss the matter further, but I am ready to go back," he resumed, and refused to say more.

A message from the chief of police at Sioux City says he is not sure that Nelson is being sought there.

L. P. CONLEE BUYS WIDMAYER E. STATE MARKET

The Widmayer meat market at 226 East State street has been purchased by Louis P. Conlee, a former resident, who has already taken possession. Mr. Conlee was for a number of years in the employ of Mr. Widmayer and more recently has been engaged in a market in Springfield. He is thoroughly experienced in the retail meat business and will no doubt handle the market in a way satisfactory to himself as the owner and to his patrons.

As already indicated, Mr. Widmayer is disposing of his property here preparatory to removal to Oakland, Calif.

Nick Chlin of Murrayville was in the city yesterday.

WORKING ON BANK ROBBERY CASE

CHURCHES GIVE STUDENT SOCIALS

eral Hundred Students Are Made Welcome by the Churches of the City Thursday Night—Programs are Given and Refreshments Served.

The student socials, which were held in the various churches of the city last evening in honor of the students of the colleges and high school here, were very successful. The students were unusually well attended and the programs were given in spite of the bad weather conditions.

Between five and six hundred students attended these socials. All were made to feel very much at home and passed a very enjoyable evening. The Baptist church had a banquet followed by a program and had a large and enthusiastic crowd of about 100. The M. E. church had the largest gathering of all, about 200, and the evening in games and entertainment furnished by a macon, Stanley Davis. Refreshments were also served.

The Northminster Presbyterian church had a well attended social and reported an enthusiastic success.

Trinity church had a lively crowd of about fifty students who enjoyed dancing and were served refreshments in the Guild House. Westminster church entertained about 100 students with games and contests and a novel idea which was called an abbreviated college course. After the refreshments had been served the students enjoyed a motion picture entitled, "T. Haviland Hick, Freshman."

Congregational church had a fine crowd of about fifty students who enjoyed games and contests. Rev. Stickney was master of ceremonies and proved himself a wonderful leader.

At Brooklyn M. E. church twenty-five or thirty were entertained and served delicious refreshments. Centenary M. E. church gave a play, "Little Rest Hotel," in honor of the students and served them delightful refreshments. They had a crowd of fifty or more.

Missionary Society of Pisgah Church Meets.

The ladies of the Missionary Society of Pisgah Presbyterian church were most delightfully entertained Thursday afternoon at the home of Mrs. Will Scott. A large number of members and guests were present. The meeting began with a song by the society entitled "What a Friend We Have in Jesus." Miss Richardson being absent Mrs. Holmes led the devotion by reading the 15th chapter of John and then offered prayer. The meeting of the society was then read. Any Smith read an interesting paper entitled "Go to the Mountains and Serve." Mrs. Drury also read an interesting article, "The Outlook of India." At the close of the meeting a miscellaneous shower was given in the honor of Mrs. Robert Gibson who was formerly Miss Bessie Zachary. Delicious refreshments were then served by the hostess, Mrs. Scott, and a pleasant time was enjoyed by all. The society then adjourned to meet Oct. 29 with Mrs. Frank Drury and daughter.

Centenary Ladies Sew for Red Cross

The Ladies' Aid society of Centenary M. E. church held a call meeting yesterday afternoon at 2 o'clock. The time was spent in sewing for the Red Cross and a number of garments were made over for the use of the relief committees.

State Street Presbyterian church had a fine crowd who were entertained in the usual manner. The students there numbered about 60. Central Christian

church had a good turnout and the usual games and contests with refreshments later in the evening. The socials were great successes in every way and prove in a convincing manner the part the church plays in the life of the student.

State Street Aid in All Day Meeting

The Ladies' Aid of State Street Presbyterian church held its first meeting of the fall year yesterday in the church parlors. The president, Mrs. C. A. Johnson invited all the new church members as guests. Mrs. Mathew Miller acted as chairman of the meeting. At noon about fifty women sat down to a splendid luncheon. The surgical dressing and bedding for Passavant hospital and finishing the quota of refugee garments. At the business session the different accounts were read, plans for the coming year and a bazaar were planned. The meeting then adjourned to meet on Oct. 6th at that time the garments will be finished.

WOMAN GOLFERS TO HAVE TOURNEY

The Municipal Golf association has planned a woman's golf tournament which will be held Oct. 4, between the hours of eight-thirty and five-thirty. This tournament is to be a novel introduction into the golf circles of the city and is what is termed as "Blind Bogey Tournament." The following are the rules which govern the contest.

All ladies desiring to enter should give their names to the Tournament committee, consisting of Mrs. L. F. Randall, Miss Ruth Brown and Miss Willella Miller by Monday, October 3rd.

Everyone entering the tournament is allowed to pick their own handicaps from scratch to 36 strokes for 18 holes. The handicap must be chosen and turned in before Monday. All scores made during the tournament are to be certified and turned in to the officials in charge as soon as the 18 holes have been played.

After all scores are turned in, numbers from 96 to 105 inclusive will be put in a hat and one number drawn. The player whose score less their handicap is nearest to this number or the time as this number will win the tournament. In case of a tie, officials will draw to see who is the winner. For example.

Entrant takes a handicap of 8. Plays 41 holes in 128. 128 less 8 is 97. Number drawn is 97, this player wins or ties for the prize.

Entrants should figure number of strokes for two average rounds, say 20 and 22, then take reading that will make their net score somewhere between 96 and 105 inclusive. If contestant plays 120 it must be well for such player to take a 24 stroke handicap. The player who knows her own game should be able to pick a handicap so that her net score will be between 96 and 105. As 36 in the maximum handicap any player who can't play 18 holes in 141 strokes should take the maximum of 36 and try to get around in 141 or better.

Jacksonville Chapter No. 3 R. A. M. will hold a special convocation this evening at 5:30 o'clock. Work. Supper at six o'clock.

DEATHS

Siebert. Mrs. Walter Rabjohn received word yesterday of the death of Mrs. B. S. Siebert at Dallas, Texas. Mrs. Siebert was the daughter of Rev. Joel Goodrick and was at one time a resident of this city living on Pine street. The family left here about twenty years ago. She is survived by two children, Mrs. Bruce Thomas of Dallas and Ray Siebert of Little Rock, Ark. One sister, Miss Ida Goodrick of Los Angeles and one brother, Albert Goodrick of Hubbard Woods, Ill. When the family were residents of this city Mr. Siebert was superintendent of the Jacksonville Railway company.

Funeral services were held at Dallas, Thursday and interment was made at that place.

Brown. Joseph Apollon Brown, brief mention of whose death was made in Thursday's Journal, was the son of the late C. F. Brown and was born in Fall River, Mass., Nov. 1, 1861. When he was five years old his parents came west and settled at St. Louis. After two years of residence there the family came to Jacksonville early in 1868.

His father almost immediately entered the grocery business having a store on the east side of the square about where Scott's theater is now located.

The decedent was educated in the public schools of the city and early in life entered the employ of his father in the grocery store. Later he was engaged by John Cherry & Son as manager of their large livery barn then located in East Court street in the rear of the Pacific hotel.

After eleven years there Mr. Brown resigned his position to look after farming interests. Eleven years ago he removed to the farm home east of the city on the state road.

November 8, 1897, Mr. Brown was united in marriage to Miss Kittien Strawn who survives him together with one sister, Mrs. Laura Brown Tooker of California. Their married life has ever been one of perfect accord.

While Mr. Brown had never united with any church he had implicit faith in God and through his life all his acts were governed by the Golden Rule.

He was a man of indefatigable energy, the never a man of robust constitution. When he entered into any enterprise he put the best thought and ability he had into it. This was as true when working for some one else as for himself.

Also he was a man of vision and could readily see the possibilities of any project. As a result he met with success in all his business undertakings.

Mr. Brown was a man of generous impulses. At times he presented a rather gruff exterior but this was only on the surface and which he assumed to hide a generous nature. Thru his death the community loses a good citizen and his wife a loving and devoted husband, one who was ever thinking of her welfare.

Funeral services will be held from the Reynolds chapel this afternoon at 3 o'clock in charge of the Rev. W. H. Marbach, pastor of State Street Presbyterian church.

Friends will please omit flowers.

Paul Havenstein scored a knock-out when he won the baby parade at Jackson Heights, Long Island. The prize was part of a carnival to enable apartment house "tenants" to get acquainted.

GREGORY AND FLOOD REACH SEMI-FINALS

Former Wins From Farrell and Lutter From Rantz — Gregory Plays Flood and Hamm Plays Osborne in Semi-Finals Today.

Dr. A. L. Gregory and Leo Flood reached the semi-finals in the city golf tournament yesterday. Gregory defeated F. E. Farrell 2 up and 1 to play while Flood won from Rantz 4 up and 3 to play.

The match between Dr. Gregory and F. E. Farrell was the one which furnished the thrills for the spectators. Despite the fact Mr. Farrell was suffering from a badly lacerated left hand resulting from jabbing screw driver into it he played a strong game and was not defeated until the seventeenth hole was played.

At the fourteenth hole he was four down and needed to win every hole to tie.

He won the fifteenth and sixteenth holes and made a beautiful twenty-five foot putt on the seventeenth. His ball rolled around the rim, wavered for an instant and then caromed off.

Golfers are looking forward with interest to the two matches today in the semi-finals. Of course the greatest interest centers in the match between Osborne and Hamm. Both are playing great golf and with favorable weather conditions it is probable the record will be broken.

Hamm is of the later school of golfers, only having started to play since the Nichols park links were laid out. Osborne is one of the veterans of the city, having learned the game at the old Country club. He is a consistent player and the gallery doesn't bother him and this respect he will have an advantage over his opponent.

Flood is also a new player. He used to caddy at the Country club links and has developed into a golfer of merit. Rantz has also shown good form in this tournament and the players seem evenly matched.

ROBERT BERGLAND INJURED BY AUTO

Robert Bergland, of this city, was knocked from his motorcycle and run over by auto, seriously injuring his back, while on his way to work in the C. B. & Q. shops in Beards town. He was severely bruised and cut from head to foot and was knocked unconscious and remained in that condition for several hours.

According to reports, Bergland was riding across a street intersection and was struck from behind by the car, which threw him from the motorcycle and then passed over him. His condition is considered serious.

The injured man is the son of Mrs. Hannah Bergland, of 435 North Webster avenue, and has for some time past had employment in the Burlington shops in Beards town.

ESCAPED HOSPITAL PATIENTS CAPTURED

Two women patients from Jacksonville State Hospital escaped Thursday evening. They were later captured northeast of the city by attendants and returned to the institution.

Mrs. Henry Fribe, who has been visiting for a month with her sister, Mrs. Ollie Parker, left yesterday for her home in Louisiana, Mo.

Mr. and Mrs. Ernest Nienheiser were Chapin arrivals in the city yesterday.

L. C. Deppe and F. F. Faugust left yesterday for Chicago. They will return in a new Nash car which Mr. Faugust has purchased.

Dewey Newman of Decatur, electric salesman, was in the city yesterday visiting his many old friends.

Mrs. J. G. Capps Jr. and Miss Pauline McMurphy were hostesses at a bridge party given yesterday afternoon in honor of Miss Lura Wiswell who is to be an October bride. The McMurphy home was lavishly filled with garden flowers for the occasion. Six tables of bridge were made up and late in the afternoon delicious refreshments were served. Among the out of town guests was Mrs. Fred Buck of Springfield.

Hostesses at Bridge Party

A delightful afternoon bridge party was given yesterday by Mrs. O. F. Conklin and Mrs. W. D. Cody at Mrs. Conklin's home on Mound avenue. Twelve tables of guests were invited and the afternoon was spent in playing bridge. After the cards an attractive luncheon was served.

Ebenezer Missionary Society Met Thursday

The Woman's Foreign Missionary Society of Ebenezer church held an all day meeting Thursday at the home of Mrs. Harry Furry at Merritt. About fifty ladies were present. An election of officers was held. A good attendance was present.

Mrs. Kinney Hostess to Thursday Club

Mrs. E. L. Kinney was hostess yesterday afternoon at her home on South Prairie St. to the members of the Thursday South Diamond club. This was the first meeting of the fall, and was spent in a social way, there being no special program. During the afternoon the hostess passed delicious refreshments. There were about twelve members present.

Surprise for Mr. and Mrs. Herbert Challiner.

A number of relatives and friends of Mr. and Mrs. Herbert Challiner of the Joy Prairie neighborhood planned a very pleasant surprise for them recently, the event being in honor of Mrs. Challiner who has recently returned from a trip to Washington. The evening was spent in a very pleasant social way and delicious refreshments were served.

The company included Mr. and Mrs. Lloyd Moss and daughter; Mr. and Mrs. Edward Patterson and family; Mr. and Mrs. John Moss, Mr. and Mrs. Newton Moss and son, Mr. and Mrs. Chris Horner and family, Mr. and Mrs. John Kershaw and family; Mr. and Mrs. Richard Standley and family, Mr. and Mrs. Louis Myers and family, Mr. and Mrs. Ted Rutherford and son, Mr. and Mrs. Daniel Vorhees and family, Mr. and Mrs. Frank Couchman and daughter, Mr. and Mrs. Samuel Challiner and family, Mr. and Mrs. Charles Ledbetter, Mr. and Mrs. Ellis Brainer, Mr. and Mrs. William Mengs and family, Mr. and Mrs. Chris Howard, Mr. and Mrs. Richard Leake and family, Misses Mary Sullivan, Pearl and Ruth Dewees, Charles Standley, Samuel Wood, Ruel Challiner, James Burke, Clyde and Carl Johnson, and Mr. Jones.

COUNTY OFFICIALS IN THREE DAY SESSION

Thirty Fifth Annual Meeting of State Association Held at Altou —Taxation Methods Theme of Interesting Address.

The 35th annual convention of the Illinois State Association of Supervisors, Commissioners, Circuit, Probate and County Clerks adjourned at Altou Thursday afternoon. The sessions continued thru three days and included a number of social features in addition to the business programs.

One of the principal addresses was made by Capt. Carlson of the state tax commission, who discussed various matters relating to assessments and taxation. The county officials present were especially interested in Mr. Carlson's statement that no increase in assessments on farm lands is expected this year. There have been such increases for the past two or three years and the changes made resulted in revamping of the tax extension work which had already been done by the clerks.

At the conclusion of Mr. Carlson's address he gave an opportunity for asking questions and a number of matters of special interest were discussed in this way.

G. L. Riggs, county clerk; Frank Wanamaker, circuit clerk; F. W. Brockhouse, deputy clerk

and J. E. Osborne, commissioner, attended the convention and returned to Jacksonville last night.

PICTURESQUE IN SOUTHERN ILLINOIS

Travelers Hardly Know They Are In Same State When They Leave Prairie Country and Enter Ozark Hills.

By Associated Press.
Elizabethtown, Ill.—Travelers accustomed to the monotony of the flat expanse of level prairie and in northern and central Illinois find it hard to believe they are still in the same state when they invade the Ozark hills of this corner of "Egypt," as southern Illinois is called.

A bit of the rugged scenery of West Virginia apparently has been set down in this isolated corner, framed by the great bend of the Ohio river. The hills which stretch back 40 miles from the river are a continuation of the Ozarks, extending east thru Missouri and southern Illinois.

Elizabethtown has the distinction, unusual in Illinois, of being a county seat without railroad, telegraph or electric lights.

Its mail still arrives by boat and most of its freight and passenger traffic is water borne, for the few roads over the hills are wretched at their best and at their worst impassable for three months out of the year.

This town is the second oldest settlement in Illinois. In the main part of its brick hotel standing on a high bluff above the river, the Marquis de Lafayette spent a night when he visited this country in 1824. The main room of the hotel was erected in 1807, but additions date from 1840 and civil war days.

In the hotel yard is the grave of Elizabeth McFarland, for whom the town was named, and of John McFarland, her husband,

who built and operated the hotel for nearly half a century. Beside them are the graves of their sons, and the simple head stones record the fact that both father and sons died from gun shot wounds—fend victims.

There are no movies in Elizabethtown. Once or twice a year the Cotton Blossom or one of the other show boats plying along the Mississippi and Ohio rivers noses into the bank for a night, and the hill farmers ride for 15 miles around to attend the performance of "The King of Tramps," "Uncle Tom's Cabin" or "East Lynne."

FROM FARMER BOY TO UNIVERSITY HEAD

Is Unsought Honor Bestowed Upon Henry W. Marshall of Lafayette, Ind.—Succeeds Dr. W. E. Stone.

LAFAYETTE, Ind.—From a farmer boy to vice president and directing head of Purdue university, one of the leading agricultural and engineering universities in the country, is the unsought honor that has been bestowed upon Henry W. Marshall of this city. Mr. Marshall was born near Springfield, O., January 29, 1865, but was reared on a farm near Montmorenci, Ind. He attended the grade and high schools in the rural district, but his greatest schooling has been in the world of experience.

When a young man Mr. Marshall left the farm and came to Lafayette. His first employment was as a bookkeeper. He had the intuition of men who do things, however, and it was not long until he was engaged in construction work. He became president of the Lafayette Bridge Co., holding that position until it was absorbed by the American Bridge company. He then became president and general manager of the Western Construction company, and for many years was president of the electric light, heat, water and street railway company at Evansville. He disposed of his utility holdings a year ago, also his interests in the construction company.

Mr. Marshall represented Tippecanoe county in the sixty-first, sixty-second and sixty-third general assemblies of the Indiana legislature and during the sixty-third session was speaker of the house. He was vice president of the Louisiana Purchase Exposition held at St. Louis in 1904, and presided at the dedication of the Indiana building.

Enters Field of Journalism
Mr. Marshall entered the field of journalism in 1914, when he purchased the Lafayette Morning Journal. His endeavors met with success and in 1919 he purchased the Lafayette Daily Courier. The publications were consolidated in 1920 and are now known as the Lafayette Journal and Courier. He also owned the Evansville Courier, but disposed of his holdings there in January, 1921.

In April, 1921, Mr. Marshall was appointed a member of the board of trustees of Purdue university and later was made chairman of the executive committee. When it came to the knowledge of the trustees that Dr. W. E. Stone, president of Purdue university had lost his life in attempting to climb Mount Eanon, in the Canadian Rockies, Mr. Marshall was appointed by Hon. Joseph D. Oliver, of South Bend, president of the board of trustees, to look after the university affairs. At a subsequent meeting of the board of trustees he was unanimously chosen as vice president of the university, with all power and duties of president. He did not seek the honor, but because of his successful business career, and the urgent need of a business head, the trustees of Purdue insisted that he serve until such time as a president is selected.

CHIMNEY SWEEP HAS VICTORIA CROSS
Zion, Ill.—(By A. P.)—Modern chimney sweep, wearing the Victoria Cross, highest honor for bravery in the British Empire, is "Zipple."

He was brought into the police station here for inquiry as to whether he was a sure enough sweep. To prove it he climbed up a rope over the police station and ran along the peak of the roof like a jack rabbit. This convinced Justice J. L. Bishop.

"Zipple" said his name was John Taylor, that he was once a captain in the British army, that he fought as privates in the Boer war and won his medal carrying a wounded officer across the veldt under fire. His partner answers to "Zip." These being the names they go by in the profession. They reported they hailed from Belvidere, Ill.

FRENCHMAN IS FIGURE WIZARD

Louis F. Fleury Can Do All Sorts of Gymnastics With Figures—Was at School for Blind Thursday.

Louis F. Fleury probably the champion calculator of the world was visiting in the city yesterday. Fleury who was born in Lyons, France, twenty-six years ago has been blind from birth.

He came to America about a year ago but has acquired good use of our language. He is a teacher of French and mathematics and his mission here was to see if he could arrange to enter the School for the Blind. Fleury wishes to become more proficient in the English language.

In a visit to the Journal office Fleury gave an exhibition of his gift which almost took away the breath of his auditors. He gave answers in figures that most of us had never heard before. The following article from the Literary Digest gives some idea of the manner Fleury handles figures.

Partly by perseverance with the Braille method, partly by devising certain mental "tips of his own, he has reached a stage of extraordinary facility in performing elaborate calculations. Fleury, for example, can give the square root of any number running into four figures in an average of four seconds, and the cube root of any number running into six figures in six seconds, and the cube root of 34,012,224, (324) in eleven seconds and the cube root of 465,484 375 (775) in thirteen seconds. These seem mere trifles, however, compared with the following:

He was asked how many grains of corn there would be in anyone of sixty four boxes, with one in the first, two in the second, four in the third, eight in the fourth and so on in succession. He gave the answer for the fourteenth 8,192, for the eighteenth 131,072 and the twentyfourth 8,388,608 instantaneously and he gave the figures for the forty-eighth box 140,737,488,255,328 in six seconds, further on the request to give the total in all the boxes up to and including the sixty-fourth he furnished the correct answer (18,440,734,073,709,551,615) in forty-five seconds. When it is remembered that Fleury has been blind from birth and can have no visual memories the feat becomes really impressive. In an average of twelve seconds he can divide any number, say of four figures, into its prime factors; thus: 2924—2-2x17x43 and so on.

According to Superintendent Wolston, Fleury can give the day for Easter in any year, the Gregorian and Julian calendars respectively and simultaneously, by some scheme equally original, of which the details are not, however, supplied.

Thus in 1662 Easter fell on April 21st and March 27th respectively (two minutes and ten seconds); and 1746, March 30th and April 10th, (two minutes and twenty seconds); and for 1946 the dates are April 11th, and April 17th (forty seconds).

Numerous other illustrations are furnished of this altogether remarkable case, which certainly equals, if it does not surpass, others that have become classical.

CELEBRATE COMPLETION OF HIGHWAY PAVING

Sterling, Ill.—(By A. P.)—Completion of the Lincoln highway paving thru Whiteside county will be celebrated by motorists from the east and west, at Round Grove, near here, Thursday afternoon, Aug. 25. The last stretch of the pavement near Fulton will be completed by that time and open for travel.

Decorated automobiles will compose the two parades which will converge at Round Grove for the celebration. One will leave Sterling at 1:30 and Morrison fifteen minutes later. State officials and representatives of the State Highway department have been secured to take part in the program.

Chairmen in charge are L. B. Whiffen, Sterling; F. A. Van Osdel, Morrison and W. H. Mitchell, Fulton.

CHURCHES GIVE STUDENT SOCIALS

Several Hundred Students Are Made Welcome by the Churches of the City Thursday Night—Programs are Given and Refreshments Served.

The student socials, which were held in the various churches of the city last evening in honor of the students of the colleges and high school here, were very successful and were unusually well attended in spite of the bad weather conditions.

Between five and six hundred students attended these socials and all were made to feel very much at home and passed a very enjoyable evening. The Baptist church had a banquet followed by a program and had a large and enthusiastic crowd of about 100. Grace M. E. church had the largest gathering of all, about 200, and spent the evening in games and entertainment furnished by a magician, Stanley Davis. Refreshments were also served.

The Northminster Presbyterian church had a well attended social and reported an enthusiastic bunch.

Trinity church had a lively crowd of about fifty students who enjoyed dancing and were served refreshments in the Guild House. Westminster church entertained about 100 students with games and contests and a novel idea which was called an abbreviated college course. After the refreshments had been served the students enjoyed a motion picture entitled, T. Haviland Hick, Freshman.

Congregational church had a fine crowd of about fifty students who enjoyed games and contests. Rev. Stickney was master of ceremonies and proved himself a wonderful leader.

At Brooklyn M. E. church twenty-five or thirty were entertained and served delicious refreshments. Centenary M. E. church gave a play, "Little Red Hotel," in honor of the students and served them delightful refreshments. They had a crowd of fifty or more.

Missionary Society of Pisgah Church Meets.

The ladies of the Missionary Society of Pisgah Presbyterian church were most delightfully entertained Thursday afternoon at the home of Mrs. Will Scott. A large number of members and guests were present. The meeting began with a song by the society entitled "What a Friend We Have in Jesus." Miss Richardson being absent Mrs. Holmes led the devotional by reading the 15th chapter of John and then offered prayer. The offering of the meeting was then read. Any Smith read an interesting paper entitled "Go to the Mountains and Serve." Mrs. Drury also read an interesting article, "The Outlook of India." At the close of the meeting a miscellaneous shower was given in the honor of Mrs. Robert Gibson who was formerly Miss Bessie Zachary. Delicious refreshments were then served by the hostess, Mrs. Scott, and a pleasant time was enjoyed by all. The society then adjourned to meet Oct. 29 with Mrs. Frank Drury and daughter.

Centenary Ladies Sew for Red Cross

The Ladies' Aid society of Centenary M. E. church held a call meeting yesterday afternoon at 2 o'clock. The time was spent in sewing for the Red Cross and a number of garments were made over for the use of the relief committees.

State Street Presbyterian church had a fine crowd who were entertained in the usual manner. The students there numbered about 60. Central Christian

church had a good turnout and the usual games and contests with refreshments later in the evening. The socials were great successes in every way and prove in a convincing manner the part the church plays in the life of the student.

State Street Aid in All Day Meeting

The Ladies' Aid of State Street Presbyterian church held its first meeting of the fall year yesterday in the church parlors. The president, Mrs. C. A. Johnson invited all the new church members as guests. Mrs. Mathew Miller acted as chairman of the meeting. At noon about fifty women sat down to a splendid luncheon. The surgical dressing and bedding for Passavant hospital and finishing the quota of refugee garments kept the ladies busy at sewing. At the business session the different accounts were read, plans for the coming year and a bazaar were planned. The meeting then adjourned to meet on Oct. 6th at that time the garments will be finished.

WOMAN GOLFERS TO HAVE TOURNEY

The Municipal Golf association has planned a women's golf tournament which will be held Oct. 4, between the hours of eight-thirty and five-thirty. This tournament is to be a novel introduction into the golf circles of the city and is what is termed as "Blind Bogey Tournament." The following are the rules which govern the contest.

All ladies desiring to enter should give their names to the Tournament committee, consisting of Mrs. L. F. Randall, Miss Ruth Brown and Miss Willa Miller by Monday, October 3rd.

Everyone entering the tournament is allowed to pick their own handicap from scratch to 36 strokes for 18 holes. The handicap must be chosen and turned in before Monday. All scores made during the tournament are to be certified and turned in to the officials in charge as soon as the 18 holes have been played.

After all scores are turned in, numbers from 96 to 105 inclusive will be put in a hat and one number drawn. The player whose score less their handicap is nearest to this number or the same as this number will win the tournament. In case of a tie, officials will draw to see who is the winner. For example,

Entrant takes a handicap of 2. Plays 13 holes in 128. 128 less 31 is 97. Number drawn is 97, this player wins or ties for the prize. Entrants should figure number of strokes for two average rounds, say 120 and 120, then take number that will make their net score somewhere between 96 and 105 inclusive. If contestant plays 120 it must be well for such player to take a 24 stroke handicap. The player who knows her own game should be able to pick a handicap so that her net score will be between 96 and 105. As 36 in the maximum handicap any player who should take the maximum of 36 and try to get around in 141 or better.

Jacksonville Chapter No. 3 R. A. M. will hold a special convocation this evening at 5:30 o'clock. Work. Supper at six o'clock.

J. W. Hughett, E. H. P. John R. Phillips, Secy.

Ralph Withee and Ted Watkins were among the Jacksonville men who attended the Winchester Auto Show yesterday.

C. H. Curtis of Sinclair was a business caller in the city yesterday.

DEATHS

Siebert. Mrs. Walter Rabjohn received word yesterday of the death of Mrs. B. S. Siebert at Dallas, Texas. Mrs. Siebert was the daughter of Rev. Joel Goodrick and was at one time a resident of this city living on Pine street. The family left here about twenty years ago. She is survived by two children, Mrs. Bruce Thomas of Dallas and Ray Siebert of Little Rock, Ark. One sister, Miss Ida Goodrick of Los Angeles and one brother, Albert Goodrick of Hubbard Woods, Ill. When the family were residents of this city Mrs. Siebert was superintendent of the Jacksonville Railway company.

Funeral services were held at Dallas, Thursday and interment was made at that place.

Brown.

Joseph Apollon Brown, brief mention of whose death was made in Thursday's Journal, was the son of the late C. F. Brown and was born in Fall River, Mass., Nov. 1, 1861. When he was five years old his parents came west and settled at St. Louis. After two years of residence there the family came to Jacksonville early in 1868.

His father almost immediately entered the grocery business having a store on the east side of the square about where Scott's theater is now located.

The decedent was educated in the public schools of the city and early in life entered the employ of his father in the grocery store. Later he was engaged by John Cherry & Son as manager of their large livery barn then located in East Court street in the rear of the Pacific hotel.

After eleven years there Mr. Brown resigned his position to look after farming interests. Eleven years ago he removed to the farm home east of the city on the state road.

November 8, 1897, Mr. Brown was united in marriage to Miss Kitten Strawn who survives him together with one sister, Mrs. Laura Brown Tooker of California. Their married life has ever been one of perfect accord.

While Mr. Brown had never united with any church he had implicit faith in God and through his life all his acts were governed by the Golden Rule.

He was a man of indefatigable energy, the never a man of robust constitution. When he entered into any enterprise he put the best thought and ability he had into it. This was as true when working for some one else as for himself.

Also he was a man of vision and could readily see the possibilities of any project. As a result he met with success in all his business undertakings.

Mr. Brown was a man of generous impulses. At times he presented a rather gruff exterior but this was only on the surface and which he assumed to hide a generous nature. Thru his death the community loses a good citizen and his wife a loving and devoted husband, one who was ever thinking of her welfare.

Funeral services will be held from the Reynolds chapel this afternoon at 3 o'clock in charge of the Rev. W. H. Marbach, pastor of State Street Presbyterian church.

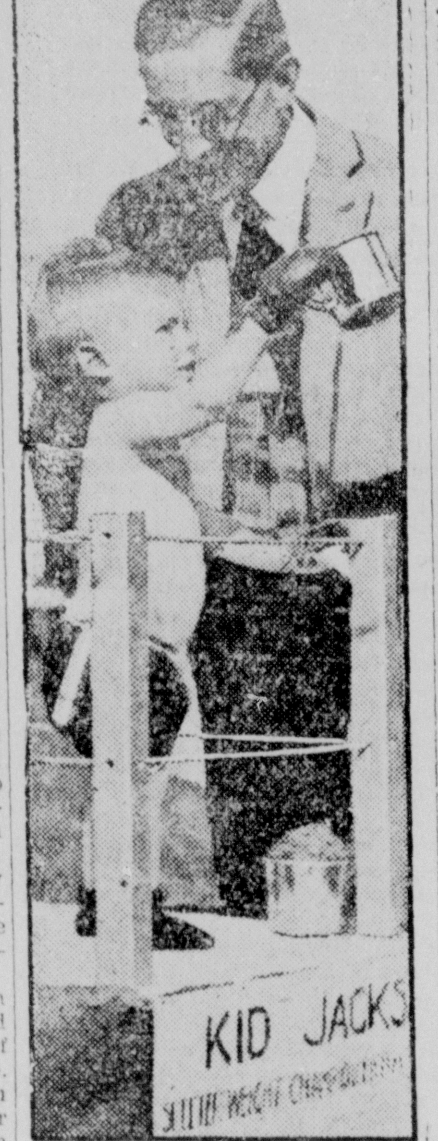

Friends will please omit flowers.

GREGORY AND FLOOD REACH SEMI-FINALS

Former Wins From Farrell and Latter From Rantz — Gregory Plays Flood and Hamm Plays Osborne in Semi-Finals Today.

Dr. A. L. Gregory and Leo Flood reached the semi-finals in the city golf tournament yesterday. Gregory defeated F. E. Farrell 2 up and 1 to play while Flood won from Rantz 4 up and 3 to play.

The match between Dr. Gregory and F. E. Farrell was the one which furnished the thrills for the spectators. Despite the fact Mr. Farrell was suffering from a badly lacerated left hand resulting from jabbing screw driver into it he played a strong game and was not defeated until the seventeenth hole was played.

At the fourteenth hole he was four down and needed to win every hole to tie.

He won the fifteenth and sixteenth holes and made a beautiful twenty-five foot putt on the seventeenth. His ball rolled around the rim, wavered for an instant and then careered off.

Golfers are looking forward with interest to the two matches today in the semi-finals. Of course the greatest interest centers in the match between Osborne and Hamm. Both are playing great golf and with favorable weather conditions it is probable the course record will be broken.

Hamm is of the later school of golfers, only having started to play since the Nichols park links were laid out. Osborne is one of the veterans of the city, having learned the game at the old Country club. He is a consistent player and the gallery doesn't bother him and this respect he will have an advantage over his opponent.

Flood is also a new player. He used to caddy at the Country club links and has developed into a golfer of merit. Rantz has also shown good form in this tournament and the players seem evenly matched.

ROBERT BERGLAND INJURED BY AUTO

Robert Bergland, of this city, was knocked from his motorcycle and run over by auto, seriously injuring his back, while on his way to work in the C. B. & Q. shops in Beardstown. He was severely bruised and cut from head to foot and was knocked unconscious and remained in that condition for several hours.

According to reports, Bergland was riding across a street intersection and was struck from behind by the car, which threw him from the motorcycle and then passed over him. His condition is considered serious.

The injured man is the son of Mrs. Hannah Bergland, of 435 North Webster avenue, and has for some time past had employment in the Burlington shops in Beardstown.

ESCAPED HOSPITAL PATIENTS CAPTURED

Two women patients from Jacksonville State Hospital escaped Thursday evening. They were later captured northeast of the city by attendants and returned to the institution.

Mrs. J. G. Capps Jr. and Miss Pauline McMurphy were hostesses at a bridge party given yesterday afternoon in honor of Miss Lura Wiswell who is to be an October bride. The McMurphy home was lavishly filled with garden flowers for the occasion. Six tables of bridge were made up and late in the afternoon delicious refreshments were served. Among the out of town guests was Mrs. Fred Buck of Springfield.

Hostesses at Bridge Party

A delightful afternoon bridge party was given yesterday by Mrs. O. F. Conklin and Mrs. W. D. Cody at Mrs. Conklin's home on Mound avenue. Twelve tables of guests were invited and the afternoon was spent in playing bridge. After the cards, an attractive luncheon was served.

Ebenezer Missionary Society Met Thursday

The Woman's Foreign Missionary Society of Ebenezer church held an all day meeting Thursday at the home of Mrs. Harry Furry at Merritt. About fifty ladies were present. An election of officers was held. A good attendance was present.

Mrs. Kinney Hostess to Thursday Club

Mrs. E. L. Kinney was hostess yesterday afternoon at her home on South Prairie St. to the members of the Thursday South Diamond club. This was the first meeting of the fall, and was spent in a social way, there being no special program. During the afternoon the hostess passed delicious refreshments. There were about twelve members present.

Surprise for Mr. and Mrs. Herbert Challiner

A number of relatives and friends of Mr. and Mrs. Herbert Challiner of the Joy Prairie neighborhood planned a very pleasant surprise for them recently, the event being in honor of Mrs. Challiner who has recently returned from a trip to Washington. The evening was spent in a very pleasant social way and delicious refreshments were served.

The company included Mr. and Mrs. Lloyd Moss and daughter; Mr. and Mrs. Edward Patterson and family; Mr. and Mrs. John Moss, Mr. and Mrs. Newton Moss and son, Mr. and Mrs. Chris Horner and family, Mr. and Mrs. John Kershaw and family, Mr. and Mrs. Richard Standley and family, Mr. and Mrs. Louis Myers and family, Mr. and Mrs. Ted Rutherford and son, Mr. and Mrs. Daniel Voorhes and family, Mr. and Mrs. Frank Couchman and daughter, Mr. and Mrs. Samuel Challiner and family, Mr. and Mrs. Charles Ledbetter, Mr. and Mrs. Eli Brainer, Mr. and Mrs. William Monds and family, Mr. and Mrs. Chris Howard, Mr. and Mrs. Richard Leake and family, Misses Mary Sullivan, Pearl and Ruth Dewees, Charles Standley, Samuel Wood, Ruel Challiner, James Burke, Clyde and Carl Johnson, and Mr. Jones.

MRS. READ GOES TO CHICAGO SUNDAY

Mrs. Helen Brown Read, who is well known here as teacher and vocalist of note, will leave Sunday for Chicago, where she will open a studio in Kimball Hall. Miss Edna Hackett and Miss Charlotte Seiber will accompany Mrs. Read to Chicago and continue their studies under her during the winter. Mrs. Marjorie Black will go to Chicago each month to study under Mrs. Read.

A host of friends will regret to see Mrs. Read leave the city. To her belongs the credit for the appearance of world famous musicians in the city. Mrs. Read has a large list of students awaiting her arrival in Chicago.

COUNTY OFFICIALS IN THREE DAY SESSION

Thirty Fifth Annual Meeting of State Association Held at Alton —Taxation Methods Theme of Interesting Address.

The 35th annual convention of the Illinois State Association of Supervisors, Commissioners, Circuit, Probate and County Clerks adjourned at Alton Thursday afternoon. The sessions continued thru three days and included a number of social features in addition to the business programs.

One of the principal addresses was made by Capt. Carlson of the state tax commission, who discussed various matters relating to assessments and taxation. The county officials present were especially interested in Mr. Carlson's statement that no increase in assessments on farm lands is expected this year. There have been such increases for the past two or three years and the changes made resulted in revamping of the tax extension work which had already been done by the clerks.

At the conclusion of Mr. Carlson's address he gave an opportunity for asking questions and a number of matters of special interest were discussed in this way.

PICTURESQUE IN SOUTHERN ILLINOIS

Travelers Hardly Know They Are In Same State When They Leave Prairie Country and Enter Ozark Hills.

By Associated Press.
Elizabethtown, Ill.—Travelers accustomed to the monotony of the flat expanse of level prairie and in northern and central Illinois find it hard to believe they are still in the same state when they invade the Ozark hills of this corner of "Egypt," as southern Illinois is called.

A bit of the rugged scenery of West Virginia apparently has been set down in this isolated corner, framed by the great bend of the Ohio river. The hills which stretch back 40 miles from the river are a continuation of the Ozarks, extending east thru Missouri and southern Illinois.

Elizabethtown has the distinction, unusual in Illinois, of being a county seat without railroad, telegraph or electric lights.

Its mail still arrives by boat and most of its freight and passenger traffic is water borne, for the few roads over the hills are wretched at their best and at their worst impassable for three months out of the year.

This town is the second oldest settlement in Illinois. In the main part of its brick hotel standing on a high bluff above the river, the Marquis de Lafayette spent a night when he visited this country in 1824. The main room of the hotel was erected in 1807, but additions date from 1840 and civil war days.

In the hotel yard is the grave of Elizabeth McFarland, for whom the town was named, and of John McFarland, her husband.

who built and operated the hotel for nearly half a century. Beside them are the graves of their sons, and the simple head stones record the fact that both father and sons died from gun shot wounds—feud victims.

There are no movies in Elizabethtown. Once or twice a year the Cotton Blossom or one of the other show boats playing along the Mississippi and Ohio rivers noses into the bank for a night, and the hill farmers ride for 15 miles around to attend the performance of "The King of Tramps," "Uncle Tom's Cabin" or "East Lynne."

FROM FARMER BOY TO UNIVERSITY HEAD

Is Unsought Honor Bestowed Upon Henry W. Marshall of Lafayette, Ind.—Succeeds Dr. W. E. Stone.

LAFAYETTE, Ind.—From a farmer boy to vice president and directing head of Purdue university, one of the leading agricultural and engineering universities in the country, is the unsought honor that has been bestowed upon Henry W. Marshall of this city.

Mr. Marshall was born near Springfield, O., January 29, 1865, but was reared on a farm near Montmorenci, Ind. He attended the grade and high schools in the rural district, but his greatest schooling has been in the world of experience.

When a young man Mr. Marshall left the farm and came to Lafayette. His first employment was as a bookkeeper. He had the intuition of men who do things, however, and it was not long until he was engaged in construction work. He became president of the Lafayette Bridge Co., holding that position until it was absorbed by the American Bridge company. He then became president and general manager of the Western Construction company, and for many years was president of the electric light, heat, water and street railway company at Evansville. He disposed of his utility holdings a year ago, also his interests in the construction company.

Mr. Marshall represented Tippecanoe county in the sixty-first, sixty-second and sixty-third general assemblies of the Indiana legislature and during the sixty-third session was speaker of the house. He was vice president of the Louisiana Purchase Exposition held at St. Louis in 1904, and presided at the dedication of the Indiana building.

Enters Field of Journalism
Mr. Marshall entered the field of journalism in 1914, when he purchased the Lafayette Morning Journal. His endeavors met with success and in 1919 he purchased the Lafayette Daily Courier. The publications were consolidated in 1920 and are now known as the Lafayette Journal and Courier. He also owned the Evansville Courier, but disposed of his holdings there in January, 1921.

In April, 1921, Mr. Marshall was appointed a member of the board of trustees of Purdue university and later was made chairman of the executive committee.

When it came to the knowledge of the trustees that Dr. W. E. Stone, president of Purdue university had lost his life in attempting to climb Mount Eanon, in the Canadian Rockies, Mr. Marshall was appointed by Hon. Joseph D. Oliver, of South Bend, president of the board of trustees, to look after the university affairs. At a subsequent meeting of the board of trustees he was unanimously chosen as vice president of the university, with all power and duties of president. He did not seek the honor, but because of his successful business career, and the urgent need of a business head, the trustees of Purdue insisted that he serve until such time as a president is selected.

CHIMNEY SWEEP HAS VICTORIA CROSS
Zion, Ill.—(By A. P.)—Modern chimney sweep, wearing the Victoria Cross, highest honor for bravery in the British Empire, is "Zipple."

He was brought into the police station here for inquiry as to whether he was a sure enough sweep. To prove it he climbed up a rope over the police station and ran along the peak of the roof like a jack rabbit. This convinced Justice J. L. Bishop.

"Zipple" said his name was John Taylor, that he was once a captain in the British army, that he fought as privy in the Boer war and won his medal carrying a wounded officer across the veldt under fire. His partner answers to "Zip." These being the names they go by in the profession. They reported they hailed from Belvidere, Ill.

FRENCHMAN IS FIGURE WIZARD

Louis F. Fleury Can Do All Sorts of Gymnastics With Figures—Was at School for Blind Thursday.

Louis F. Fleury probably the champion calculator of the world was visiting in the city yesterday. Fleury who was born in Lyons, France twenty-six years ago has been blind from birth.

He came to America about a year ago but has acquired good use of our language. He is a teacher of French and mathematics and his mission here was to see if he could arrange to enter the School for the Blind. Fleury wishes to become more proficient in the English language.

In a visit to the Journal office Fleury gave an exhibition of his gift which almost took away the breath of his auditors. He gave answers in figures that most of us had never heard before. The following article from the Literary Digest gives some idea of the manner Fleury handles figures.

Partly by perseverance with the Braille method, partly by devising certain mental "tips of his own," he has reached a stage of extraordinary facility in performing elaborate calculations. Fleury, for example, can give the square root of any number running into four figures in an average of four seconds, and the cube root of any number running into six figures in six seconds, and the cube root of 34,012,224, (324) in eleven seconds and the cube root of 465,484 375 (775) in thirteen seconds. These seem mere trifles, however, compared with the following:

He was asked how many grains of corn there would be in anyone of sixty four boxes, with one in the first, two in the second, four in the third, eight in the fourth and so on in succession. He gave the answer for the fourteenth 8,192, for the eighteenth 131,072 and the twenty-fourth 8,388,608. Instantaneously and he gave the figures for the forty-eighth box 140,737,488,255,328 in six seconds, further on the request to give the total in all the boxes up to and including the sixty-fourth he furnished the correct answer (18,446,734,073,709,551,615) in forty-five seconds. When it is remembered that Fleury has been blind from birth and can have no visual memories the feat becomes really impressive. In an average of twelve seconds he can divide any number, say of four figures, into its prime factors; thus: 2924 = 2 x 2 x 7 x 43 and so on.

CELEBRATE COMPLETION OF HIGHWAY PAVING

Sterling, Ill.—(By A. P.)—Completion of the Lincoln highway paving thru Whiteside county will be celebrated by autoists from the east and west, at Round Grove timber near here, Thursday afternoon, Aug. 25. The last stretch of the pavement near Fulton will be completed by that time and open for travel.

Decorated automobiles will compose the two parades which will converge at Round Grove for the celebration. One will leave Sterling at 1:30 and Morrison fifteen minutes later. State officials and representatives of the State Highway department have been secured to take part in the program.

Chairmen in charge are L. B. Whiffen, Sterling; F. A. Van Osdel, Morrison and W. H. Mitchell, Fulton.

If you are interested in keeping your operating cost to a minimum, follow the course of common sense.

How do you keep up your general health? What do you do when you become ill? Do you consult a paper hanger in regard to your heart action? Do you set up your own opinions, based on imagination? Do you base your conclusions on sales talk?

NO! TO ALL OF THESE.

Ultimately you seek the advice of education, science and services of skilled workmen.

WHY?

Because the ultimate results combine the experiences of many tending to economy and satisfaction.

INDUSTRIAL BOARD BREAKS ALL RECORDS

Breaks Record of Any Court in Hearing Cases and Granting Damages, According to Recent Announcement.

CHICAGO. — (By The Associated Press.)—Breaking the record of any industrial court in Illinois for total damages awarded, the Illinois Industrial Commission, in the year ending July 1, heard 50,585 cases and granted damages totaling \$9,319,256, according to the first announcement of the commission's new chairman, Ernest Withall of Chicago.

The greatest total since the commission's organization in 1913 was granted in 537 fatal and 19,988 non-fatal cases. Effectiveness of the commission's work, which will go ahead with new energy when the other members are seated, may be seen," Mr. Withall said, "when comparison is made with record figures for judgments in other state courts. The Municipal court of Chicago, the record holder hitherto, whose total annual awards surpass twice the total of all circuit and superior courts of Chicago put together, has only an annual average of seven million dollars, and of that amount, it is estimated by some lawyers, only thirty per cent is actually collected."

Every Cent Awarded Is Paid. The industrial commission, on the other hand, saw that every cent of the nine million dollar awarded workmen was paid. Should any factory owner fail to make payment, notice was served him that payment must be made in full when due or a penalty followed.

Coal miners got the greatest share of the year's award according to the commission's totals. There were 13,249 coal mine cases, and awards totaling \$3,932,253. Other classes included the following: Rolling and steel mills 1,250 cases, awards \$296,530. Vehicles (wagon and automobile) 1,784 cases, awards \$252,467. Steam railroads 1,072 cases, awards \$271,393. Stock yards, 886 cases, awards \$78,241.

NEW YORK TIGHTENS HOLD OF FIRST PLACE

Beats Philadelphia While Chicago Blanks Cleveland—Ruth Out of Lineup.

PHILADELPHIA, Sept. 29.—Philadelphia today defeated New York 10-0, New York tightened its grip on the American league lead. As Cleveland was beaten to one more victory to clinch the pennant. Shawkey allowed the Yankees but four hits and these kept well scattered. At no time was he in trouble. Such was not the case with Harris. The Yankees garnered nine hits, three of which were for extra bases. New York confined its scoring to the first two innings, the second, third and seventh.

In the second Pipp was safe on a boot, went to second on a sacrifice and scored on Shawkey's single. McMillan's triple and Miller's triple and

KERR SHATTERS CLEVELAND HOPES

Little Dick Blanks Runnersup While Yanks Win—Chicago Fielded in Phenomenal Style.

CHICAGO, Sept. 29.—With "Little Dick" Kerr pitching a masterly game, Chicago virtually ruined Cleveland's chances in the American league pennant race today when he shutout the world's champions by 5 to 0 in the first game of the final four game series.

Cleveland to beat out New York in the scramble for the flag must win its three remaining games, and the Yankees lose their remaining three. The margin between the pennant contenders tonight was two and a half games.

Kerr celebrated a day set aside in his honor by holding Cleveland to six hits and with the aid of sensational fielding did not allow a Cleveland player to pass second. The Indians threatened fourth but Kerr started a double play which shattered their hopes. After the Sox scored two runs in the first Cleveland played a listless game. In the first Johnson led off with a single and took second on Strunk's out. After Collins had hit to Evans, Hooper hit a single to center scoring Johnson. Hooper taking second in the throw to the plate. Sheely followed with another single over second scoring Hooper. With runners on first and second in the second inning and two out, Manager Speaker sent Sothoron to bat for Pitcher Sothoron. Caldwell assumed the pitching burden in the second and fared well until the sixth when, after two were out, Chicago scored another run. Mostil singled to left and Mulligan followed with a hit to the same place. Mostil raced home when Evans booted the ball. The Sox scored another run in the seventh after two were out.

Strunk hit to center and as a result of Speaker's slow fielding stretched it into a double. Collins scored Strunk with a single to center. In the eighth Mulligan grounded to Caldwell who threw wide to Burns permitting Mulligan to reach second. Schalk's triple scored him. Score: Cleveland 000 000 000—0 6 2 Chicago 200 001 11x—5 10 2 Sothoron, Caldwell and O'Neill; Kerr and Schalk.

WANN LOSES SIX OF LAST YEAR'S STARS

Still Expects to Develop Winning Team—Opens Season Tomorrow With Shurtliff.

DECATUR, Ill., Sept. 29.—Despite the fact that he will face the stiffest schedule in the history of Millikin football, Athletic Director Norman G. Wann and Assistant Coach Leo Johnson are optimistic over prospects for a winning eleven. The team plays its first big game Saturday. Six stars of last season's state championship team will not be in the ranks this season including Captain John MacWhorter, Suther, Goltra and Hamilton, who were "all conference" men; Gill, one of the best receivers of forward passes in the conference; and Cord Lipe, a halfback also an all state basketball guard who has enrolled at the University of Illinois coaching school.

Regulars from last season's eleven on hand are Captain Ward tackle, Diehl and Sullers end; Wallace halfback and Abrams, fullback.

Paul Bailey of Menominee, Mich., a dash man and all-state basketball guard, is again out for the team after keeping away from the game last season. He should fill one of the back-field vacancies in fine shape, having taken on considerable weight. Brooks Wilson, who showed much promise last season but was put out with an injury before the first game, is making a strong bid for an end.

Other men who have done well in the early season drills are Bowman, Knapp, Taylor, Harrison, Shoppell, Hodde, Schrahl, Weilepp, McKelvey, Staley, Curl, Klump, Maxwell, Harper, DeBeer and Webber.

The schedule is this:
Oct. 1—Shurtliff at Decatur.
Oct. 8—Northern Normal at Dekalb.
Oct. 15—Knox at Galesburg.
Oct. 22—Augustana at Rock Island.
Oct. 29—Rolla at Decatur.
Nov. 5—Wabash at Crawfordsville.
Nov. 12—Wesleyan at Decatur (Homecoming).
Nov. 19—Illinois College at Decatur.
Nov. 26—Lake Forest at Decatur.

BIG TEN TEAMS IN ACTION SATURDAY

Game Between Chicago and Northwestern Only One to Have Bearing on Final Standing—Illinois Only Idle Team in Conference.

CHICAGO, (By the A. P.)—With the clash between Chicago and Northwestern furnishing the piece de resistance, nine of the ten football teams in the Western Conference will swing into action Saturday.

The Chicago-Northwestern clash will be the only game having any result in the championship standing. The other eleven in the conference will take the gridiron against minor colleges in what are regarded as practice games. Michigan will open its season with Mt. Union at Ann Arbor, Wisconsin and will go into action against Lawrence at Madison, Purdue will meet Wabash at Lafayette, Iowa will take on Knox at Iowa City. Minnesota will open with North Dakota at Minnesota, and Ohio State will take on Ohio Wesleyan at Columbus. Indiana will take the field against Kalamazoo college, thus giving Coach Stiehm a second chance to test his eleven before the important clash with Harvard Oct. 8.

Illinois will be the only idle team in the conference. The Illini will not open their season until Oct. 8 when South Dakota will be the attraction at Urbana.

Altho a bit stunned by the unexpected defeat handed Northwestern last Saturday by Beloit, the Purple coaches have been taking hold this week in a determined effort to mold a machine into shape for the encounter with Chicago. Coach Elmer McDevitt, his assistants, Edler, Putnam, Sawtelle and Ferguson, started work Monday to correct the many fundamental errors their proteges showed in the Beloit contest. Following the ball, holding to it when once the man gets it, and vastly more punch in offensive

WESTERN HORSE SHOWS THE WAY

Sir Roche Beats Mary O'Connor and Urico in 2:08 Pace—Jimmie McKerron Wins Arch City Stake.

COLUMBUS, O., Sept. 29.—One of today's Grand Circuit class races outshone the two stake events on the card as a real contest. Sir Roche, a western horse in the 2:08 class pace, showed the way to Mary O'Connor and Urico. He stepped the second mile in 2:02. The first two heats were hotly contested, Sir Roche dropping the third when he broke at the first turn. Jimmie McKerron won the Arch City 2:10 pacing stake as he pleased after leading the first heat. The Western Horseman, three year old futurity pace was a hollow event, there being but two starters and Belmar being distanced the first heat by Peter Henley because of almost a standstill break on the back stretch. The 2:18 trot was won by Lemo Moko.

WILLARD WILL SIGN
FOR RETURN BOUT
Topeka, Kans., Sept. 29.—Jesse Willard said today he expected to sign at once upon its arrival the contract reported to have been sent him by Tex Rickard, and return same to Rickard. The contract for a return bout with Jack Dempsey, world's heavyweight boxing champion was mailed in New York Wednesday. Willard said he has been advised of the terms and is quite certain they are acceptable. The bout probably will be held some time between June 15 and July 5, next summer Willard said.

Mrs. William W. Wiles, Miss Halley and Miss Martha Seymour, Mrs. J. J. Scott, Miss Nellie E. Eddy, Mrs. Frank Wilson and Mrs. Thomas Smith were shoppers in the city Wednesday from Franklin.

FIFTY YEARS IN ONE CONFERENCE

This Is Record of Rev. William C. Smith, Now Located at Dedham, Iowa—Is Also Expert Tight Rope Walker.

DEDHAM, Ia.—Fifty years in one conference during which time he preached more than 7,500 sermons and saw 2,500 persons converted and taken into his church, is the record of Rev. William Christie Smith, pastor of the Methodist Episcopal church here. Rev. Smith, who is 76, recently returned from the Des Moines conference, having made the 150 mile trip with his wife by automobile. At the conference he preached his semi-centennial sermon.

Next to driving his automobile, Rev. Smith takes most delight in walking a tight rope, a survival of the days when he longed to become a circus acrobat, he says. The veteran's first sermon was delivered at Perry. His salary at that time was \$300 a year.

He came to Iowa from Coshoc-ton, O., with his parents in a prairie schooner in 1856, and settled on a farm twelve miles from Des Moines. He was a student in the public schools, a member of the second graduating class at Simpson college, Indianola, Iowa, and was the first editor of the Simpsonian, the college newspaper.

During the first forty-two years of his ministry he delivered three sermons each Sunday. The credit for his half century of work in the ministry is due to his wife, Rev. Smith declares, adding, "She is as able to fill the pulpit as I, and has served as superintendent of the Sunday school, chorister, pianist, teacher and leader in the missionary societies."

The couple have been married forty-six years, and of their six children, five are college graduates, four alumni of Simpson college and one of Missouri State college.

THE CHICAGO LIVESTOCK EXCHANGE

Conservancy is the keynote of feeding operations at present and probably will be all thru the winter season. This applies both to cattle and sheep. For several reasons the plunger and speculative feeder is out of the business, temporarily at least, consequently there is no possibility of setting the stage for re-enactment of what has happened this year in consequence of laying in stockers and feeders at prices that insured loss in the finality of the transaction. Skepticism concerning the future course of the cattle market is logical in view of what has been happening for months past, but elimination of the hazards of the business is impossible and while opinion may differ as to what is in store the present scale of prices at which unfinished cattle are available should be reasonable assurance against loss in fitting them for the beef cooler.

That production thruout the winter months will be restricted is indicated by the stock cattle movement and a pronounced disposition to lay in light cattle. The present policy of the average feeder is to secure as many cattle as possible for the money, which means that he is whittling down weight and, in many instances, sacrificing quality to get away from initial cost. It may result in scarcity of heavy cattle next year, but the element of risk involved in preparing big bullocks is not to be ignored, the fact being indisputable that beef distributors can eat but a limited number of heavy carcasses.

Opinions among cattle feeders differ as to the safest, or most logical, policy. Comparatively few are taking out steers weighing around 1000 lbs. the buying of which amounted to a furore a year ago, the majority favor light cattle, showing preference for plain breeding at the price while a certain element pays a premium for quality. The fat cattle market requires variety, so that following the crowd is usually doubtful policy. One thing is certain and it is that the error of overproduction of heavy cattle will not be repeated during the 1922 season.

The extent to which beef consumption has been restricted is indicated by the latest figures from Washington. Per capita consumption in July was only 5.38 lbs. or 0.33 lbs. less than a year ago and 0.33 lbs. less than in June. That it has not improved since is a logical deduction this probably being one of the principal reasons for cattle trade depression. In the face of restricted beef consumption that of pork has actually increased showing that a period of industrial depression favors the more economical product, pork in its various forms being known as the "poor man's meat." July per capita consumption of pork was 4.24 lbs. or 0.18 lbs. more than a year ago and 0.22 lbs. more than in June. Wage earners invariably switch to pork during such periods of stress as the community has been passing thru. Current monthly per capita consumption of lamb and mutton is only 0.34 lbs. against 0.41 lbs. a year ago. Monthly per capita consumption of beef, pork and mutton is about 7.96 lbs. against 8.18 a year ago. Reckoning with approximately 100,000,000 consumers this curtailment is serious in the aggregate.

Cattle marketing is now at flood tide. Last week ten principal points received 244,000 head the heaviest volume of the year, although considerably less than at the corresponding time last year when 307,000 arrived. Pasture cattle are running marketward from all over the Southwest where

frost will soon cut down feed over the long grass area. Beef gathering is also in full swing in the short grass country and will be prosecuted vigorously especially in the higher latitudes where real winter is only 30 days distant consequently well filled cattle markets are assured especially in view of the limited purchasing capacity of the country which is not seriously in the competition for fleshy steers at present.

During this period of grasser liquidation the market is an uncertain place for short fed cattle, especially when they have not had sufficient corn to do them much good. Grass cattle are now coming from every nook and cranny of the country and should be given the right of way as far as possible.

Hog values have been steadily declining and the spread narrowing until, in the opinion of many people in the trade prices are practically down to a winter packing season basis. Average cost at Chicago has been fluctuating with the \$7 mark for a week, supply has been heavy and the proportion of fat yielders large. Lard exports continue heavy, but production is large and probably will be, which is responsible for bearish sentiment among those who handle that commodity. Last week ten markets received 394,000 hogs, against 309,000 a year ago and as weight was heavier than then lard production was ample. Chicago's average weight last week was 248 lbs. or 7 lbs. heavier than a year ago and 13 lbs. above the average of the past ten years. Now crop hogs are rapidly accumulating weight and the major portion of the crop will probably be held to convert cheap corn into marketable form so that apprehension of liberal lard production is warranted. On the other hand Europe will undoubtedly require enormous quantities of that commodity. Stocks are being cut down. Chicago having shipped 47 1-2 million pounds of lard in two weeks and as the new prices of hogs shows profit in the conversion process the trade is looking for the bottom of the decline.

The country is still anxiously inquiring as to the probable winter course of the hog market. At the market and in packing circles concern on the same subject is almost ill concealed. That European demand for excess domestic production will be an important factor in determining prices will not be disputed and if present weekly clearances are continued the winter market should get a healthy start. Europe has not other supply source and at present prices pure lard is in a position to compete with substitutes especially when an enormous shortage in the crop of cotton seed oil is considered. At the moment expectancy of heavy winter lard production and uncertainty as to continuance of export demand are bearish influences.

Heavy receipts of both native sheep and lambs have depressed prices, but the end of the Western run of fat lambs is in sight and after the residue of native crop has been cleaned up a healthier condition is probable. Feeders have joined the retrograde movement finishing of bovine stock in common with cattle feeders showing a disposition to extreme caution. As few thin Western show or lambs went to the cornbelt early a gap in supply is not unlikely about the time "come back" stuff usually influences prices. The extent to which lamb and sheep finishing will be curtailed, both in the cornbelt and West of the Missouri river during the coming winter can only be conjectured, but will be considerable. Probably sufficient to influence prices to the extent of enabling feeders to recover some of the money where it was lost last season. A year ago the trade was confronted with an enormous stock of foreign frozen lamb and mutton which has been practically eliminated and will not hang as a menace over the market during the coming winter.

A stiff contest is pending at Washington over the hide tariff dispute. The Chicago Live Stock Exchange urges necessity for an active campaign with the object of securing the 20 per cent ad valorem duty cattle raisers seek. There is at present a stock of sole leather amounting to 11,000,000 sides, or the equivalent of 5 1-2 million hides on hand, and 9 to 9 million of upper leather, the equivalent of 4 1-2 million calf and hip skins, not to speak of an enormous accumulation of what the trade terms "country hides," all of which is sound argument for a duty. Write your representatives in congress urging this action. Those interested in free hides and leather are manufacturers of shoes and leather goods whose only contention is that cost will be cheapened to consumers, the fallacy of which has already been demonstrated.

In Design, Fabric and Tailoring

To the initiated in matters of design, engaging motifs of tailored style, these models are examples of the ingenuity of the designer. The Printz designer sees his style sketch developed into a garment even more beautiful than his original conception. The Printz standards of tailoring give each model a certain quality based upon values which the superficial glance does not always observe.

We take particular pleasure in offering to our patrons this unusual collection of autumn suits and coats.

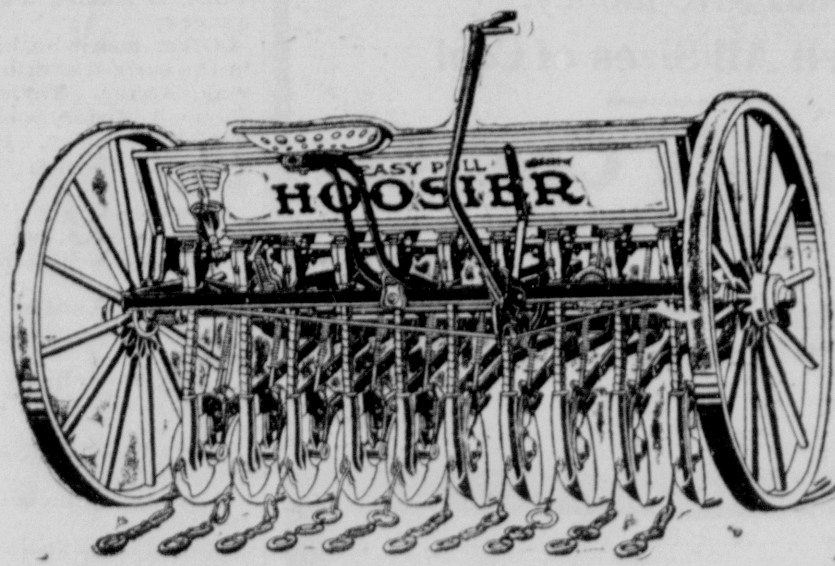

You will be surprised to find that Printzess coats and suits are moderately priced, no higher than many garments of questionable value and infinitely more desirable.

PRESSIVE CEREMONY AT BELLEAU CEMETERY

Miss Mary Wadsworth, who is acquainted with her uncle, Dr. J. Wadsworth, in his work at the Methodist Memorial in Chateaufort, in a recent letter to her aunt, Mrs. E. E. Crabtree, gave the most interesting facts about the Memorial Day exercises. Some paragraphs from the letter, which will be of especial interest to those who have soldiers buried in the Chateaufort cemetery, are given here:

2 Place des etas Unis
Chateaufort
Aisne, France, May 31, 1921.
This morning I feel very much

like "the morning after" for yesterday was one of the most memorable days in my life. I wish that I could adequately describe the day and all it meant. All day Sunday the village people kept bringing us flowers for the "Pete American"—till both bath tubs were full of roses, peonies, daisies, and every flower you can think of. Along about noon a mother and her two daughters, very humble people, brought a most gorgeous piece, a wreath as large as a wagon wheel made of red roses, white pinks and blue irises and with two big ribbons of red, white and blue across the top. Really I had never seen a lovelier piece in any florist's in America. And these poor French people who

scarcely have enough to live on, made it to show their appreciation of Americans. It touched me as much as anything. Guests were here for the night but early yesterday we were up, getting things in order. In one of the government trucks I met the 9 o'clock train from Paris but not many people came on it, although there were a dozen or more. Then I hurried back here where people were assembling to go to Belleau. We had three cars (two trucks and our own Ford) for transportation. I felt like I wanted to represent some one mother in America and personally decorate a grave, so I sent Rene over to the market place to buy me some flowers. I gave her 5 francs (45c) and she returned with two bunches of yellow and white roses, one bunch of pink roses and one bunch of white pinks. When we reached the cemetery, the Paris delegation who had come in cars were there, many peasants from Belleau and the surrounding villages, and then all the army people, who are here with the grave registration service. There were about 500 to 600 people. I should think, scattered about from one end of the cemetery to the other. While Aunt Maud, DuVillers and the others of our family were putting our quantities of flowers on "unknown" graves (and oh! there are so many!) I took mine to the Vollrath boy's grave.

At 11 o'clock the ceremonies started on an improvised platform, midway in the cemetery and at one side. All mothers were seated on the platform and of course the speakers. Everyone else stood. An American army chaplain opened the services with a short prayer, then the master of ceremonies took charge (speaking in French). He introduced the first speaker, Rear Admiral McGruder, who paid tribute to the Marine buried there. He spoke very briefly, without notes, and with great sincerity. At the end, tears choked him, as he said two brothers lost their lives in the war and one is buried here. When he ended not a sound was heard, as no one could applaud.

He was followed by General Johnson of the army of occupation. His address, perhaps more studied, was fine and the part we all liked was that the glory belongs to France and the spirit of self-glory was lacking. The French general then spoke and he was great, a fine old man in his blue uniform, plastered with medals (I counted 11 on his left breast) and medal Militaire Legion of Honor medals about his neck. Then there were several short tributes by the French, to the American war mother.

And then while every one sang "Nearer My God to Thee" two large floral pieces were placed, one on an unknown marine's grave and one on an unknown soldier's grave. Then the buglers, standing beneath the flag, played taps and the flag was lowered. Immediately raised with with the French flag. Just as they reached the top a breeze caught them and they floated out in the sunlight. Oh! it was so impressive and there was scarcely a dry eye. I wish everyone I know could have been there, looking upon the hill, where the fresh green shrubbery was thick with wild flowers and red poppies, and standing high above the giant black fire scarred tree trunks—trees killed by gas which stand as a silent remembrance of that terrible battle there. And to think it was just three years ago and that that very field on which we stood was covered with the dead.

The cemetery was so beautiful—3,000 white crosses and on each grave a laurel wreath with a red poppy and there weren't many graves without flowers. Oh! such quantities of flowers there were! No cemetery in America could have been more beautiful. I took some kodaks and a poppy and a rose from Vollrath's grave and when I got the kodaks I'll send them to his father and will write of the high tribute that was paid to those boys.

After dinner everyone had to hurry to get ready for the Chateaufort American cemetery services, which were to be at 3:30. Aunt Maud and I decided we'd stay here in case guests came, and it was wise, for we had a steady stream of visitors. But one great disappointment came. On Saturday Uncle Julian had a wire from Paris from Mr. Kermit Roosevelt, saying he and a party were planning to visit his brother's grave and wished to call at the Memorial and see the motor which is in our souvenir room. So we were expecting them, and they didn't get here.

The services at Chateaufort were very fine, they said, all in French, and more of a French fete than Belleau in the morning. Last night after dinner we walked out to our American cemetery to see the flowers before they withered. By the time I finally got to bed I felt I would never want to get up again. But it was a wonderful day and I feel very fortunate in having been here and having the opportunity to see it all. Soon after I came here Uncle Julian gave me some articles written by American officers who fought here, giving accounts of their battles, in order that I might familiarize myself with the facts and be able to tell people who came here about the battles. One was by Lt. Bissell who with two machine guns fought on this side of the river when the bridge was blown up June 1, 1918. The account was just wonderful and who should come here Sunday but Capt. Bissell and his wife, the same man who fought so bravely here. They stayed all night here with us and on Sunday evening by the aid of a map he gave me the most detailed account and straightened out lots of points which were vague. He with 14 men fought on this side with the French. The morning of June 2, when they finally reached the other side (after the bridge was gone) he had six of his original fourteen men. These were the first American casualties. It was just fine to have it all first hand and he was so modest about it all.

Now that Decoration day is over, Belleau is to be closed and exhumation work to start, so Ruth Mills and Cora Jordan are leaving. What do you think, I'm a teacher now. I've taken two little French girls for English lessons. I take them from 6 to 7 on Wednesdays and Saturdays. We never have dinner until 7:30 and the Classe de Gard closes at 6 o'clock so I'm giving that time.

LOS ANGELES, Calif., June 25. (By A. P.)—Plans to attempt a non-stop airplane flight from the Pacific to the Atlantic coast in the near future have been announced by Davis R. Davis, a wealthy young California sportsman, and Eric Springer, veteran pilot of Europe and America. The flight, if successful, not only would prove epoch making as the first of its kind, but probably would bring to America and to an American machine, two or three most coveted aerial records—marks now held by foreign flyers.

In competing the coast to coast flight, a distance by air line of approximately 2,500 miles, the flyers would break the non-stop distance record of 1,940 miles made by Alcock and Brown in crossing the Atlantic shortly after the war. Indications are that a successful trip also would establish a new record for continuous flying, the present mark being 24 hours, 19 minutes, 7 seconds, held in France. The third of the most coveted achievements of flyers—the record for straightaway speed—probably would not be affected in a coast to coast flight.

The plane in which the attempt will be made is an especially constructed machine in which every modern mechanical appliance tending to insure success of the trip will be installed. Every detail of it will be of American design and manufacture. Designed by Donald W. Douglas it has been christened the "Gloucester." It will not be particularly large, the wing spread being 56 feet, the length 35 feet and the height 13 feet. Many war planes were larger.

The tanks will carry 650 gallons of gasoline for the 400 horse power liberty engine. An instrument of special construction will enable them to tell whether the plane is flying level, even though he is in a fog which makes the earth invisible. Other instruments will register the gasoline consumption per hour, the oil consumption, the direction and speed of the wind, the air speed and ground speed of the machine and all other data useful to an aviator in attempting such a record breaking flight.

The plane has been completed for nearly two months. Its speed has been found to be close to 110 miles an hour as a maximum. Present plans are to start the flight in July.

WILLIAM H. TAFT NAMED CHIEF JUSTICE

(Continued from Page 1)
Twice he has served on the bench, having been a judge of the superior court of Ohio and a judge of the federal circuit court in the same state. The list of his other public services include the positions of collector of internal revenue, solicitor general of the United States, civil governor of the Philippine Islands, secretary of war and president. During the world war Mr. Taft performed several public duties, including the task of helping organize the war labor board. At the signing of the armistice he assumed a prominent position as a leader in the movement for a world peace court and later brought down on his head some of the bitterest criticism of his career by advocating ratification of the league of nations. In the last presidential campaign Mr. Taft stood with his party in its opposition to acceptance of the league in its present form.

Mr. Taft is in his sixty-fourth year and is said by his friends to be in robust health despite the fact that he has lost considerable weight since he left the presidency. Realizes Life Ambition
Montreal, June 30.—"It has been the ambition of my life to be chief justice," William H. Taft declared tonight, "but now that it is gratified, I tremble to think whether I can worthily fill the position and be useful to the country."

"I have received telegrams announcing that the president has nominated me to be chief justice of the United States and that the senate has at once confirmed the nomination," said Mr. Taft in a signed statement, commenting on his appointment. "I am profoundly grateful to the president for the confidence he has thus shown that I can discharge the important duties of the exalted office. I sincerely hope and pray that I may be able to show that his confidence has not been misplaced. I highly appreciate the immediate confirmation by the senate."

PROMINENT RUSHVILLE COUPLE MARRIED

Miss Helena Munson and Guy Pickenpaugh United in Ceremony at I. W. C.

In the reception room of Illinois Woman's College yesterday morning at 10:30 a very pretty ceremony took place when Miss Helena Munson of Rushville and Guy Pickenpaugh also of Rushville were united in marriage.

The bride is a graduate of Illinois Woman's College and it was her wish that the wedding should take place at her Alma Mater. Dr. Joseph R. Harker performed the ceremony before a party of twenty-eight, including the immediate families and a few friends.

The vows were said before a bank of sweet peas and ferns, in the reception room and before the ceremony Miss Marian Munson, a sister of the bride, played the Mendelssohn wedding march. The bride wore a gown of antique filigee lace over white satin and carried a bouquet of bride's roses. The lace for her wedding gown had been brought from France during the war, by her father.

After the ceremony a delicious wedding breakfast was served at the Peacock Inn. The young couple left yesterday for a motor trip to northern resorts. Upon their return they will make their home in Rushville where the groom is a successful business man.

The bride, is the daughter of Dr. and Mrs. H. O. Munson, and is a member of one of the prominent families of Rushville. She attended Illinois Woman's College for four years and has many friends here. The groom is the son of Mr. and Mrs. Marion Pickenpaugh of Camden and is a graduate of the Illinois State Normal school.

The bridal party included besides the parents of the young couple, the two sisters of the bride, Misses Marian and Harriett Munson of Rushville, who are students at the college; Misses Ruth and Doris Pickenpaugh and Howard and Lloyd Pickenpaugh, sisters and brothers of the groom, of Camden; Howard Frowin, of Macomb, Ill.; Guy Overton of Winchester; Mrs. G. M. Steinmiller and daughter, Miss Miriam Steinmiller, Miss Dorothy Dean, Miss Bertha Nelson, Reverend Wilmont, Brassard White, Mr. and Mrs. Howard Bartholow, Mr. and Mrs. Homer Ellis, Miss Hildreth Ashwood and Miss Adeline Naught, all from Rushville; Miss Maude Strubberger, of Alton, Ill., and Mrs. Mary Gray, of Roswell, New Mexico, besides Dr. and Mrs. J. R. Barker of this city.

For immediate delivery, Port Huron Tractor-Special threshers. Put the cost of custom threshing in your own pocket. WAITING YOUR TURN spells loss of your time and grain. Come in and look the Port Huron over. Hundreds of farmers are economizing by using individual threshers. Open evenings and Sundays. LUKEMAN MOTOR CO.

WHEN OVERSEAS COMRADES MEET

There is a saying quite often quoted that the world is not so very large after all, and people meet their friends and acquaintances in unexpected ways. A happening in proof of this statement occurred recently when Commander James Barnes, Homer Paschall and Clarence Segner of Harrison Dickson post, Veterans of Foreign Wars, were driving from Jacksonville to the state encampment in Rockford.

They were traveling along in the outskirts of Peoria when a motor cop stopped them and said their speed was beyond the ordinance limit. Mr. Segner happened to notice that the policeman wore an overseas button. A question or two followed and then very quickly the speed cop came to attention and with a smile of recognition saluted. It developed that he had served in the same battalion with Mr. Segner, who was a first lieutenant in the war time. They had not been in the same company but did have a speaking acquaintance. It goes without saying in the next few minutes there were some interesting reminiscences of overseas life, in which all three of the Jacksonville men as well as the Peorian had something to say. No fines were assessed.

GOING TO OHIO A well equipped auto party, drove into the city yesterday enroute from Tulsa, Oklahoma to Toledo, Ohio. They were E. F. Black, wife and daughter, Mr. and Mrs. B. A. Huston. They report affairs quiet in their city after the unfortunate rioting and burning which took place not long since. Like all good citizens they deplore the occurrence.

SUFFERERS INJURY TO EYE

Harvey Wheeler of White Hall is a patient at Passavant hospital suffering from a painful injury to his eye. While in the harvest field, Mr. Wheeler in some manner got a hard of wheat in his eye. The result was very painful and so serious that it was found necessary for him to come to Passavant for treatment.

FEW FIRES IN MONTH OF JUNE

Five runs were all that the Jacksonville fire department found it necessary to make during the month of June. All of these were minor blazes, and in two cases the flames were extinguished before the truck arrived. In none of the fires was there any great loss of property.

June runs were as follows: June 4—Jacksonville Railway and Light Company plant, South Main street barn on fire \$50 damage.

June 7—333 North West street, home of Buker Daniels; oil clothes burning behind stove; slight damage.

June 13—17 1-2 West side square smoke from fumigation apparatus mistaken for fire.

June 25—214 North Main street, J. S. Green garage; automobile on fire; slight damage.

June 28—430 East Lafayette avenue; false alarm.

Golf Oxfords

For those women who insist on wearing the correct thing, always, we have provided these decidedly clever sport oxfords. Designed particularly for golf, tennis, etc.

Very good looking and "Decidedly Smart."

We also carry the same style for men.

Very reasonably priced quality considered.

PRICE OF WHEAT

TAKES UPWARD SWING

By Associated Press.

CHICAGO, Sept. 29.—Wheat
took a decided upward swing in
price today chiefly as a result of
speculative buying based on opini-
ons that a rally was overdue. The
market closed strong, 1c to 2 1/2
net higher with December \$1.23
to \$1.23 1/2 and May \$1.27 1/2 to
\$1.27 3/4. Corn finished 1/4c lower to
3 1/2c up. Oats at 1c decline to
2c advance and provisions lower.

At first the wheat market con-
tinued the decline which had
been in progress for a week with
a majority of traders giving at-
tention for the most part to the
lack of any important European
demand for shipments from the
United States. Bears put em-
phasis too on reports that Ger-
many, Italy and France had
raised much larger wheat crops
this year than last.

Word that flour business at
Minneapolis was dull counted as
a suppressor factor. In the
last half of the day, however, per-
sistent buying of wheat on the
part of professional operators,
who have been conspicuous on the
selling side of late absorbed all
the surplus offerings in the pit
and forced values into a rapid as-
cent. The market closed at the
topmost level reached aloft fur-
ther rain in Canada causing crop
damage was about the only bull-
ish new development in sight.

Corn and oats flurried in the
wheat. On the downturn Septem-
ber corn touched the lowest on-
record since 1906, for that
month.

Lower quotations on hogs
weakened provisions, especially
lard in which liquidating sales
were heavy.

AUGUST RAILROAD

EARNINGS ISSUED

By Associated Press.

NEW YORK, Sept. 29.—Sentim-
ental and technical considera-
tions entered into the better tone
of today's stock market. Business
prospects by federal reserve au-
thorities continued to brighten
and additional favorable state-
ments of August Railroad earn-
ings were issued. Money rates
remained steady and a more
cheerful feeling was reflected in
cables from London.

Stocks in which the short in-
terest recently renewed its ag-
gressions less today's rally, not-
ably oils and kindred issues, also
equipment, steels, motors and
their rubber accessories and ship-
pings, these gaining 1 to 3 points.
Total sales amounted to 485,000
shares.

Confusion attended the lighter
dealings in foreign exchange.
British and French rates eased,
moderate marks rallied slightly,
and Greek, Italian and Norwegian
bills were lower by 8 to 20 points
and far eastern quotations were
unaltered. Victory notes domi-
nated the bond market at a new
high mark for the maximum of
\$99.86. Sales included one lot of
\$5,000,000.

**ARE AMERICANIZING
ENGLISH CHILDREN**

LONDON—(By A. P.)—Eng-
lish children are rapidly becom-
ing Americanized thru seeing
nothing but American moving pic-
tures, is the contention of A. G.
Granger, manager of an educa-
tional picture series who holds
that film education ought to be
part of every school curriculum.

"Millions of children go to the
pictures regularly," he said to an
interviewer. "In American films
no opportunity is lost to introduce
the American flag; American mo-
tors are shown and popularized;
American ideas in dress, furniture
habits and customs are being con-
tinually put before the children,
with the result that they know
more about Lincoln and the North
and South wars than about Oliver
Cromwell and Nelson."

"Where did the fashion for
bobbed hair come from? From
America, and by the film," he
added.

All English teachers are now in
favor of introducing the film in
the schools, Mr. Granger said.

**WARNS AGAINST
BOLSHEVIST TEACHING**

Paris—(By A. P.)—The French
government has taken the of-
fensive against Bolshevist propa-
ganda in educational institu-
tions. Leon Barad, Minister of
Public Instruction has issued a
circular in which college profes-
sors and public school teachers
are warned against the propa-
gation of extremist ideas in
their work.

"Republican France," he says,
"cannot look with indifference
upon a propaganda that recom-
mends violence and the suppres-
sion of universal suffrage, with
the consequent annihilation of
national representation and lib-
erty."

It has been noticeable since the
extremist agitation became active
thruout France that the Commu-
nist forces were recruited prin-
cipally among youths and young
men from 15 to 25 years of age.
Some have inferred from this fact
that boys did not come out of the
public school or college with
healthy ideas of government.

Some of the most violent ex-
tremist agitators have been public
school teachers.

**COFFEE ROOM NOW
BIG ASSET IN HOTEL**

Kansas City, Mo.—(By A. P.)
—When prohibition removed the
hotel bar, three substitutes were
introduced to take its place—the
candy shop, the soda water foun-
tain and the coffee room. Chief
income winners of these, accord-
ing to S. J. Whitmore, head of
Kansas City's two largest hotels,
is the coffee room.

"The coffee room," said Mr.
Whitmore, "provides food with-
out service—at least with no
service worth mentioning, com-
pared with the hotel dining room
and the grill room. It has proved
popular and profitable, and we are
only sorry we didn't discover soon-
er that people wanted it."

The food, he explained, comes
from the same kitchen that pro-
vides food for the more expensive
eating place in the hotel. The
difference in price is due entirely
to the much lower service cost.

"Prohibition has made this dif-
ference in the hotel business—
there are just as many eating, but
lots less of them are dining," Mr.
Whitmore added. "Dining was a
leisurely process, a fine art, an
amusement, while eating is mere-
ly a matter of satisfying hunger."

"Wines were a legitimate and
necessary part of dining. Eating
doesn't require those touches. It
is a simpler process, quicker, and
doesn't cost so much. That's
where the coffee room comes in."
